VOL. 43.

VICTORIA, B. C., THURSDAY, SEPTEMBER 25, 1913

NO. 73

GAMBOA IS NOMINATED CATHOLIC PARTY PRESIDENTIAL CANDIDATE

Huerta Agrees to Choice of Foreign Minister Who is Sixty-Five Years of Age and Not Prominently Identified With Party Politics; General Rascon Nominated for Vice-Presidency; Gamboa Accepts the Honor

Mexico City, Sept. 25.—Frederico Gamboa, minister of foreign affairs, is now nominated for the presidency by the Catholic party convention. General Eugene Rascon was nominated for the vice-presidency. Both candidates are regarded as men of high standing. Senator Gamboa accepted the candidacy. Frederico Gamboa was a disciple of Ignacio Mariscal, at one time minister to the United States. He was substitute secretary for foreign affairs under Mariscal. Later he became minister to the Netherlands, and has recognized ability as a diplomat. He is a writer of some note, and is about 50 years of age.

General Eugene Rascon was minister of war under Provisional President de la Barra. He served as military commander of the federal district for a short time, and later as governor of Yucatan. He is now military commander of the district of Oaxaca. He is 65 years of age, and has a long military record.

Has Huerta's Approval.
According to a prominent member of the Catholic party, the selection of candidates was made with the approval of General Huerta, and therefore, means the elimination of Huerta as a presidential possibility.

The Catholic party, while supporting the present administration morally and financially, it is explained, realized the futility of endeavoring to continue

General Huerta in office in the face of opposition on the part of the United States and the consequent inability of the government to borrow money. This attitude was plainly indicated to General Huerta, who was brought to realize its consistency, and finally to sanction the proposed nominations. He gave assurances of his support of the ticket. He said he would not be the candidate of any other party or faction.

Confidence in Gamboa.
The efforts of the Catholic party, it is said, have been directed at the selection of men who would be acceptable to the United States. The choice fell upon Senator Gamboa for the reason that he has not been prominently identified with any political party, while it is believed that he will have the confidence of Liberals as well as Catholics, and upon General Rascon, who is regarded as a desirable running mate for similar reasons.

He has always been an army man and mixed little in politics. He was a friend of Porfirio Diaz, and was Madero's choice for war minister in the de la Barra cabinet. Since then he has received proof of confidence on the part of the present administration. The nominations are of unusual importance, because the Catholic party is the only real political party having a far-reaching organization. Its ramifications extend practically to every village and hamlet.

VENICE PIER DESTROYED BY HIGH SEAS OR DYNAMITE. SPECTATORS SAW FLASH

Police Seek Two Men in Connection With Damage Done During Night

Los Angeles, Cal., Sept. 25.—Four hundred feet of an unfinished amusement pier at Venice, a seaside resort, was destroyed last night either by the high seas or a blast of dynamite. Its construction had been discontinued several months ago owing to a labor misunderstanding.

Spectators said they saw a flash, but the roar of the waves and the high wind prevented hearing any explosion. Dead fish were washed up on the beach.

The pier was being built by E. R. Maier, Los Angeles brewer and owner of the Venice baseball club. Maier and directors of the pier were meeting last night and discussing the continuation of the work. Already about \$60,000 worth of concrete and steel construction had been done, and the damage was estimated at \$25,000.

In an attempt to ascertain the cause of the wreck two men, who were seen loitering near the place, were sought by the police to-day. One of the men is said to have carried a revolver in his hand.

Persons associated with Mr. Maier in the construction of the pier indicate that work would be resumed as soon as possible. When completed, the pier will have cost approximately \$500,000.

CONTRACT AWARDED BRITISH COMPANY FOR \$30,000,000 HARBOR WORKS AT VANCOUVER

London, Sept. 25.—J. C. White & Company, the eminent British harbor engineers, announce that they have secured a contract involving six million pounds sterling for a scheme for harbor extension in Vancouver where the provincial government recently granted foreshore rights to the Vancouver Harbor & Dock Extension Company.

Huddleston & Vigers and Hansley Heenan, late British Admiralty engineers, are also joint contractors. It

is intended to provide twenty-five miles of dockage at Lulu Island and Sea Island and many miles for industrial sites and railway terminals.

The company agrees to give the government control over the dockage rates that are to be charged, and also undertakes to allow all railway and steamship lines equal privileges.

The agreement gives the government the right to purchase at an arbitrated value, the works which the company, as a private promoter, has placed at the disposal of the industrial world.

WITNESS IS STABBED BEFORE CASE OPENS

New Turn Given Bill Raising Case to Be Heard in Seattle Court.

Seattle, Sept. 25.—Benjamin Snow, a witness for the government in the prosecution of John Griffin and his brother, charged with raising \$2 bills to \$20, was assaulted at an early hour this morning in the vicinity of Eighth avenue south and Connecticut street. Pepper was thrown into his eyes and he received knife wounds on his left forearm and left hand.

According to Mr. Snow's story, a man drove up in an automobile to where he was standing and interrogated him in reference to the case against John Griffin, which will be called in the federal court to-day. The man, who is described as well-dressed and wearing diamonds, inquired of Snow if it were his intention to appear as a witness against Griffin. Snow said that he answered in the affirmative, whereupon the stranger asked him what he intended testifying.

"I'm going to tell all I know," said Snow, whereupon the man pulled a can of pepper from his coat pocket and threw it in Snow's eyes. Snow grappled with his assailant and the man pulled a knife, inflicting the wounds.

REDMOND IS GRANDFATHER.

Dublin, Sept. 25.—John Redmond, leader of the Irish party, became a grandfather yesterday when twins were born to his daughter, Johanna. Her husband is Max S. Green, chairman of the Irish prisoners' board.

APPLE CROP TEN PER CENT. LESS IN MONTH

Report Made on Four American States by Distributors at Spokane.

Hood River, Ore., Sept. 25.—H. F. Davidson, president of the North Pacific Fruit Distribution, returned Tuesday night from Spokane, where he had attended a meeting of the board of trustees of the distributors.

Mr. Davidson said in part: "We went into the matter of crop estimates and reports from the various districts in Oregon, Washington, Idaho and Montana in a most careful manner, and it is apparent now on the eve of picking time that the apple crop is ten per cent below what it was at a meeting one month ago."

"Last week the distributors booked orders for 1,000 carloads of apples, ranging in price from \$1.25 for fancy and \$2 for extra fancy stock per box. This is an average price of over \$1,000 per carload f.o.b., and making a total sale of over \$1,000,000."

"The distributors have opened an office in London."

NO DELAY IN FREIGHT.

London, Sept. 25.—In consequence of the labor troubles at Liverpool the Canadian Express have transferred their staff to Bristol. All outward traffic has been shipped from that port and Canadian importers will, therefore, experience no delay in receiving their goods.

LAURIER MAY BE IN CHATEAUGUAY FIGHT

Consultation at Montreal To-day After Hurried Trip From Ottawa by Leader

Montreal, Sept. 25.—On receipt of a hurried call Sir Wilfrid Laurier came here this morning to consult with the Liberals about the Chateauguay situation and the advisability of his participating in the fight. The Liberal convention for Chateauguay will be held on Monday. E. McCowan will be the Liberal candidate.

Hon. Sidney Fisher went to Ottawa yesterday and was in consultation with Sir Wilfrid Laurier, Hon. Mackenzie King, and Hon. Charles Murphy. He returned here this morning with Sir Wilfrid and Hon. Mackenzie King.

MINERS DISSATISFIED WITH AMERICAN UNION

Contracts Signed for Coal From United States Show Organization's Intentions.

Nanaimo, B. C., Sept. 25.—Israel I. Rubinowitz, the Vancouver lawyer arrested here on Tuesday on a charge of intimidation, spent another night in jail, an application for bail made on his behalf by Mr. Potts, of this city, having been refused by his honor Judge Barker, late yesterday. A further application will be made by the accused in person this afternoon to his honor Judge Howey.

The U. M. W. of A. repudiate the suggestion that the Vancouver attorney was employed by them and in doing so disclose the fact that there is a serious breach between the Socialists in this city and the American organization. It is suggested that the defense committee that accused his secretary is composed of members of the Socialist party. It is generally accepted that the union has been defeated and considerable dissatisfaction exists. It is rumored, in the ranks as to the manner in which the British Columbia market has been flooded with coal from across the line, thereby securing for the United States collieries contracts that were held by the local mining companies. Had the U. M. W. of A. been genuine, it is suggested, in their efforts to help the men in the Vancouver Island mines, they would have called a sympathetic strike in the pits across the border.

R. R. MAITLAND BRITISH CONSUL AT HONDURAS

Vancouver, Sept. 25.—Official notification has been received in this city of the appointment of R. R. Maitland as consul for Honduras. The notification, which came from the Governor-General at Ottawa, stated that the appointment had been made at the request of the secretary of state for the colonies.

Mr. Maitland is the senior member of the legal firm of Maitland, Hunter & Maitland and is acting as counsel for the Dominion government in the litigation over the Spanish Bank leases.

LOGGING ENGINEERING IN BRITISH COLUMBIA

Spokane, Wash., Sept. 25.—Engineering problems related to logging were discussed at the morning session of the Pacific Logging Congress here to-day. Committees were selected and the next meeting place was chosen. The congress will, according to reports, go on record for an endorsement of \$600,000 for instruction in logging engineering in five states universities in the United States, and in a university in British Columbia. Better living conditions for men in the logging camps were reported and the Y. M. C. A. was given much credit for the uplift movement. A session will be held this afternoon and a banquet to-night.

WASHINGTON TAKES AN INTEREST IN SELECTION

Washington, D. C., Sept. 25.—The nomination of Frederico Gamboa, Mexican minister for foreign affairs, by the Catholic party, for president, reawakened interest here in the Mexican situation. Secretary Bryan declined to comment.

While the United States might ultimately recognize Gamboa if chosen at a legal and fair election, the disposition in official circles was doubt whether he could be elected.

Representatives of the constitutional party declared the radical party of Mexico would take no part in the elections and that the revolutionists would refuse to recognize Gamboa.

The opinion of American officials was that Gamboa could not triumph in a popular election in Mexico.

PRINCESS INDISPOSED.

Munich, Sept. 25.—Princess Augustine Victoria, wife of former King Manuel of Portugal, was ordered by her physicians to-day to return to the hospital and remain there for some time, as she needs a rest. She is suffering from influenza, following a chill contracted on an excursion in the Bavarian Alps.

SHARE IS CLAIMED IN SHUSHANNA FIND

Hotel Keepers Who Grubstaked James File Suit in Equity

INJUNCTION GRANTED TO PREVENT SELLING

Fifteen Placer Claims and Quartz Properties Are Involved

HAMSHAW HAS OPTION TO BUY FOR \$500,000

Dawson, Y. T., Sept. 25.—Henry Dubois and Hugh Brady, Dawson hotel keepers, yesterday filed a suit in equity in the Yukon territorial court against William James, discoverer of the Shushanna. M. Wales, who accompanied James, and William Johnson.

Brady and Dubois allege that they, together with Johnson, grubstaked James and Wales in the Nugget mine at Dawson and that they were counted out in the final disposition of the rich claims in the Shushanna, but that Johnson was granted a quarter-interest in all the properties acquired, and they ask for an injunction restraining the defendants from selling the ground or disposing of the gold.

Judge Macaulay granted a temporary injunction to-day, whereby when application will be made to continue the injunction until the trial which probably will be held this winter. The action involves 15 placer claims—the Bonanza, Little El Dorado, Gold Run and other claims elsewhere in the camp—and quartz properties.

The plaintiffs allege discovery was made on Bonanza last year, that the defendants got others to stake and gave the plaintiffs no opportunity to ask a full accounting and settlement and share in the properties.

Fletcher T. Hamshaw, who has an option to purchase the properties of James and associates, now here, was notified yesterday of the proceedings. He says his option call for the payment of \$500,000 for the properties held by the James party.

Fred T. Congdon, attorney for the plaintiffs here, has wired Valdez to start action on similar lines in the United States court there.

EDISON WAS STRANGER TO NEW OFFICE BOY

Inventor Stopped at Laboratory Building and Denied Admittance by His Employees.

Orange, N. J., Sept. 25.—When Thos. A. Edison, who has just recovered from illness, started to enter his laboratory here yesterday, he was intercepted by a lad who recently had become attached to the laboratory office force. "No strangers allowed in here," said the boy. "It is a rule that no one except employees can enter the building unless they have an appointment with Mr. Edison, and you can't see him because he is home sick."

The inventor asked to whom he should go if he wished to make an appointment with Mr. Edison. The new boy summoned W. H. Meadowcroft, Mr. Edison's secretary.

"I've come to take up the work left off by Mr. Edison. I want to know if you are not desirous of employing a man who is willing to work now and then," said the inventor, as he shook hands.

He added: "Meadowcroft, that boy you have here is all right. I hope he will continue to see that the rule of this laboratory are faithfully carried out."

GET ON THE LIST

All who desire to be put on the voters' lists for the province, which lists of course are used in the case of a federal election, are reminded that the first Monday in October is the last day upon which they can make application to be placed on the lists at the November revision.

All who are not now on the list and who are entitled to be added at the coming revision should make application at once to the secretary of the Liberal Association, 619 Cormorant street, to the registrar of voters, Harvey Combe, at the law courts, or to any of the commissioners who are empowered to receive applications.

The qualification requisite is being a British subject of full age, with residence in the province for six months and in the district for one month before the claim to be inscribed on the list is made.

BOARDS OF TRADE ASKING FOR RAILWAY LEGISLATION

Resolutions Are Passed at Kaslo Convention Seeking Penalties Against Delay of Cars and Transport; Want Experimental Farms Established, Post Office Lobbies Open on Sundays and Labor Clearing House Founded

Nelson, B. C., Sept. 25.—Resolutions asking that legislation be enacted which would compel railroads to furnish cars when required and to transport them when loaded, attaching penalties similar to those exacted by the companies as demurrage, were passed to-day by the Associated Boards of Trade of Eastern British Columbia in session at Kaslo. The government is also asked to utilize the lands of the British Columbia Southern railway to establish experimental farms.

Another resolution asks that post office lobbies be kept open on Sundays. That a labor bureau which shall be the clearing house for labor be established by the federal government was the subject of a resolution. To regulate transient real estate agents, the convention asks the government to provide for heavy license fees for such salesmen and to require them to give full details of property sold.

Officers elected were: F. A. Starkey, president; H. Giegerich, vice-president; A. B. Mackenzie, secretary.

COURT ASKS FOR ALL CAMPAIGN EVIDENCE

Contributions Received by Sulzer Said to Be More Than Those Accounted For

Albany, N. Y., Sept. 25.—The court of impeachment for the trial of Governor Sulzer unanimously voted to-day to have all of the campaign contributions received by the governor, whether specified in the articles of impeachment or not.

The point arose on the testimony of Morris Tekulsky, a New York liquor dealer and former president of the New York City Liquor Dealers' Association. He had known William Sulzer for twenty-three years, he said, and considered himself an intimate acquaintance. When he started to tell about the organization's contributions to Mr. Sulzer, Attorney Marshall objected, maintaining there was nothing in the articles of impeachment regarding this witness. The purpose of the articles of impeachment, he contended, was to give notice to a respondent of the nature of the accusations against him, and to afford him time to prepare an answer.

Mr. Stanchfield, in reply, declared that the managers are prepared to prove that Mr. Sulzer received a large number of contributions, vastly in excess of those which appear on the face of the charges. There is no question as a matter of law, but that this evidence is admissible," said Mr. Stanchfield. "The managers charge that William Sulzer filed a false statement of campaign expenses intentionally. He studiously concealed contributions from all sources where he thought his public acknowledgment might injure his political future. The amounts were deliberately omitted by design and intent. Therefore, I claim that it is proper that we should show all instances wherein he acted in a manner that renders him unfit to occupy the high place he now fills."

"One of the governor's defenses is that the omissions were the result of a mistake. We charge that he deliberately set out to falsify his statement and that he accomplished his purpose."

DECEMBER CONGRESS TO SEEK RAILWAY SAFETY

"Man Failure" Verdict of Commerce Commission in Wallingford Wreck is Cause.

Washington, D. C., Sept. 25.—On the heels of the interstate commerce commission's scathing denunciation of the New Haven road for the recent Wallingford wreck in which it was held that "man failure" beginning with its high officials and ending with its trainmen, was responsible for the loss of twenty-one lives, sentiment in congress rapidly began to crystallize in a movement to take up the whole subject of legislation for train safety at the December session.

An effort will be made to empower the interstate commerce commission to deal with such questions as steel cars and modern safety equipment.

Commissioner McChord, who has investigated many recent wrecks, is drafting a bill to place such power with the commission. Representative Stevens, of New Hampshire, chairman of a sub-committee of the interstate commerce commission, began hearings to-day preliminary to the drafting of a similar bill.

WRECKAGE OF 1788 FOUND.

Paris, Sept. 25.—Wreckage which is supposed to be the remains of the Boussole, the vessel of the French explorer, Laprouse, which sailed on a voyage of discovery of the Pacific in 1788 and never returned, has been found buried under sand on the island of Vaukoro, in the Pacific.

EIGHTEEN PEERS IN THE ULSTER COUNCIL

Thirty-Five of Provisional Parliament Include Seventeen Members of Commons

SOBER MINDS AGAINST THE MILITARY COUNCIL

No Sign of Excitement in England Where Settlement is Looked For

NO PUBLIC MEETINGS POLITICIANS ABSENT

London, Sept. 25.—The long list of names comprising the Ulster provisional government includes eighteen peers and seventeen members of the House of Commons. Of these latter fifteen are Ulster Unionists, and the other two are Sir Edward Carson, who sits for Dublin University, and Col. Rickman, D. S. O., member for South Wiltshire. He has had a brilliant military career, seeing active service in the Egyptian and Sudan campaigns, and in South Africa, where with the rank of brigadier-general he commanded under General French.

The Middleburg districts' plans had been made for appointing yesterday the military council, which should hostilities break out, would to all intents and purposes be the war staff, but more sober councils prevailed, chiefly no doubt that the possible publication of these names might cause very awkward for certain general officers and regimental commanders on the active list.

Canon Pounds and Rev. Dr. Wright were elected chaplains to the provisional government. A frank and unplaced review of the present situation in Ulster brings the following conclusion: "While travellers who have been recently in Ulster declare that the temper of Unionists there is unmistakable, earnest and determined, there is not yet in England the faintest sign of general excitement. Everybody appears to have a vague impression that something, or other will happen to straighten things out. Nobody, not even parliament knows what it will be months yet before even the parliamentary machine at Westminster can get going again, let alone before the Home Rule bill goes into the House of Commons for the last time, and all sorts of unexpected things might turn up meantime."

Regarding Sir Edward Carson's present tour of speech-making, F. E. Rickman, the well known Labor leader, writes to the Times declaring that Sir Edward's incitements are having a serious effect on labor opinion. The Times editorially agrees with Mr. Rickman, but adds that Carson's campaign is an unfortunate but unavoidable necessity of the circumstances of the case. Continuing, the Times says: "Carson and the Ulster Unionists have not yet resorted to violence. This is exactly what the great bulk of the English public appear to have voted for themselves, and therefore they will observe columns of print about the present goings in Ulster with perfect equanimity."

Not a single large public meeting in connection with the Ulster agitation has yet been arranged in England, and leading politicians of both sides are making holiday all over the world.

MRS. PANKHURST EXPECTS SYMPATHETIC WELCOME

American Men Reasonable She Says, but English Militancy Has Helped Cause.

Paris, Sept. 25.—Mrs. Emmeline Pankhurst, the English suffragette leader, said to-day that she did not anticipate the slightest difficulty in entering the United States on her proposed visit to that country, and had received no communication whatever on the subject. "The object of my visit to America," she said, "is to answer the question in the minds of the American people, which Miss Haldane did not answer, namely, why militants do the sort of things they do in England."

"Fortunately," continued Mrs. Pankhurst, "on account of the reasonable nature of American men, American women appear to be getting the vote without peaceful means. Nevertheless, I think that even American women owe some gratitude to English militancy for helping to make 'Votes for Women' the burning question of the day. I have no reason to expect anything but a sympathetic welcome from the nation."

WITNESS ARMY MANOEUVRES.

London, Sept. 25.—Col. Sam Hughes and party are watching the army manoeuvres at Aldershot in company with Lord Roberts, Lord Methuen and Sir Ian Hamilton.

Yesterday their Majesties King George and Queen Mary spent the greater part of the day following the attack of the invading army about Blakeney.

DRY BREAD AND HAIR MATTRESSES AT VASSAR

Poughkeepsie, N. Y., Sept. 25.—After a year's study of the health situation at Vassar College, the college authorities have decided cotton mattresses and butter are not conducive to health, and as a result butter now is barred from the dinner table, and the girls hereafter will sleep on hair mattresses required by the new rule. A storm of protest has arisen from the girls. Wery faces were shown at breakfast and luncheon yesterday over the process of taking dry bread, and there is much talk of the students making a formal protest against the rule.

CHINESE SMUGGLING IN UNITED STATES

Arrest at Cleveland Offers Belief That Route of Entry Has Been Discovered

Cleveland, Ohio, Sept. 25.—With the arrest to-day of Yee Tung, immigration officials believe they have discovered the route by which many Chinese have been smuggled into the States along the lakes from the Canadian border. Several letters were found on him which are said to implicate prominent Chinese in Chicago and Pittsburgh.

In his hearing before the federal commissioner, Yee Tung said he was born in San Francisco and had lived in Chicago and Pittsburgh, but could not name streets of those places, or speak English. It developed that it cost \$300 to get him into this country.

Washington, D. C., Sept. 24.—An increase in the smuggling of Chinese into the United States, alarming to its portions, has caused the immigration authorities to redouble their vigilance, particularly along the southern and western borders of the country.

Early next week Richard H. Taylor, immigration inspector at large, will begin a trip along the southern border of the country to see that the law is rigidly complied with. Later he will extend his trip to points on the Pacific coast.

Scores of Chinese have recently been apprehended in the United States who have gained entrance across the Mexican border. Many of them passed through this country to Mexico in bond, ostensibly to become laborers on Mexican plantations.

KING GEORGE ACTING AS PARTY ARBITRATOR

Daily Express Gives Opinion That Present Home Rule Bill is Dead

London, Sept. 25.—On Saturday Sir Edward Carson will inspect fourteen battalions of Belfast Volunteers at Balmoral, near Belfast, when, instead of the salute, the general will call for three cheers, whilst the Unionists bands will play "Rule Britannia" and the National Anthem. A feature of the spectacle will be a huge Union Jack which was used at the Bonar Law meeting in 1912.

The Standard's lobby correspondent declares that the frequency with which politicians have been visiting Balmoral bears out the inference that it was the King who initiated the attempt to bring the parties together. He adds that very serious attention is being paid to the proposal to exclude the immediate scheme of Ulster from the immediate scheme of the Irish Government. The proposal, he continues, would involve the remodelling of present plans so as to convert the Irish government scheme into a more liberal endowment of the Irish Parliament and he adds that there is reason to believe that Unionist Ulster would adopt such a solution of the difficulty.

The Daily Express, repeating former utterances of the subject, emphasizes its conviction that the present Home Rule Bill is as dead as Julius Caesar. Premier Asquith is now attacked within his own camp, it says, and must agree to a conference or must go out of office.

If the Radicals go, it says, Mr. Bonar Law will come in. Mr. Asquith will make a statement in a speech to be delivered in Scotland on October 11.

Referring to the suggestion that the government relieve Sir Edward Carson and F. E. Smith of their seats on the Privy Council, The Express asserts that such action would be followed by the resignation of all the Unionist privy councillors.

The Daily Mail says that though the Liberal newspapers may maintain a little longer their attitude of make-believe, the Liberal ministers know that the nearer the hour approaches for the third enactment of the Home Rule Bill the more impossible becomes their position.

The House of Commons has been presented by the strike situation at Dublin and admits that the example of Sir Edward Carson may have a serious effect on the labor opinion. It maintains that the responsibility rests with the government and it expresses the belief that they, as responsible statesmen, will give the country the chance to support them with a different policy.

The Daily Graphic suggests that an election take place in February.

The Chronicle (Liberal) is of the opinion that Sir Edward Carson's last desperate effort is likely to fail, while The Citizen (Labor) infers that Sir Edward is climbing down.

STUDENTS EXPELLED AFTER "BEER EVENING"

Sensation at German University Where Abstainers Protest and Are Called Before Authorities

Graefswald, Germany, Sept. 25.—The expulsion of a number of students from Graefswald university, one of the oldest in Germany, because of their total abstinence principles, has caused a sensation here. The students, numbering about 1,000, were called together in June to attend a typical "beer evening" in celebration of the jubilee of Emperor William's reign. The rector of the university presided.

Several abstainers protested and were thereupon reprimanded by the officials who declared their protest an incitement to action against academic customs. One of the abstainers criticized the reprimand and was sentenced by the authorities to three days' confinement in the university dungeon.

Further protests by other students led to even more drastic steps being taken by the authorities, who at once expelled two of them and summoned four other to appear before the university officials.

WARRANT FOLLOWS ON WOMAN'S CHEQUES

San Francisco, Sept. 25.—A warrant was issued to-day for the arrest of Mrs. A. C. Penbody, who says she is from Seattle, on a charge of uttering fraudulent cheques. The Hotel St. Francis accepted her cheque for \$300 on the First National Bank of Seattle, after the bank had informed the management that she had insufficient funds there to meet it, on the strength of her assurance that a deposit sufficient to cover the face of the cheque would be in the bank before the cheque could be presented. In Seattle for payment. The cheque came back.

A dry goods firm also honored a cheque for \$160 which was found not good.

Mrs. Penbody is described as well dressed, of engaging manner and apparently about 30 years old.

**WILLIAM J. GAYNOR LEFT
ESTATE OF \$2,000,000**

New York, Sept. 25.—The will of William J. Gaynor, late mayor of New York, filed to-day, leaves to the widow his Brooklyn residence and 500 shares of Royal Baking Powder company stock. The remainder of the estate with the exception of minor bequests is divided two-sevenths to each of two sons and one-seventh to each of three unmarried daughters. The value of the estate is estimated at \$2,000,000.

HARVEST ESTIMATE BY C. P. R. GRAIN AGENT

Yield of Wheat, Oats, Barley and Flax Will Be Five Hundred Million Bushels

Winnipeg, Man., Sept. 25. The Canadian Pacific railway's general grain agent, Thomas Atchison, has issued his estimate of the 1913 crop of the Canadian Prairie West. Mr. Atchison, conducting farming operations in the western provinces. He commented adversely on the proposal to establish a sampling market, and declared the C. P. R. would have been paralyzed in its operations by this time if the proposals had been in effect. He said that the amount of the fall plowing which would be done this year, as compared with that of 1912, would, in all probability, be sufficiently large as to add 20,000,000 bushels to the crop of 1914. He also referred to the slow movement of the crop by boat from the head of the lakes, and stated that this was at the present time the only cloud on the horizon. The crop estimate follows:

Province.	Yield per acre.	Bushels.
Manitoba	25.0	25,579,000
Saskatchewan	28.0	114,800,000
Alberta, South	22.0	22,000,000

Threshing was practically completed in many districts in Southern Manitoba, added Mr. Atchison, and he stated that he was almost in daily receipt of requests from threshing machine owners for names of districts where there would be further work for them.

The recent frost has done practically no damage, but would be beneficial to the grain in stock, as it would prevent it from sprouting, which it was in danger of doing during the recent warm weather.

Fall plowing was making rapid progress, and present indications pointed to more of it being done before the freeze-up than ever before in recent years. This augured well for 1914 crop, as so many farmers who do not get their plowing done in the fall find the spring season all too short, which results in stubble sowing; but farmers who sowed on stubble this spring learned a lesson which they will not soon forget.

HOUSE AND SENATE NEAR END OF TARIFF

Washington, D. C., Sept. 25.—Twenty sharply-contested issues in the tariff bill remained to be settled when the House and Senate conferees reassembled this morning for what many believed would be the concluding day of their work.

The policy of the administration toward foreign countries, involving the proposed retaliatory provisions of the tariff, the 5 per cent discount on goods brought in American ships and the prohibition against goods made by child labor and other similar features were still to be settled.

PRINCE RUPERT HAS FIRST DISTRICT FAIR

Prince Rupert, Sept. 25.—In brilliant weather, the first fair ever held here was opened yesterday by Hon. Price Ellison, who has just come overland from Edmonton. He lauded the country from its scenic and mineral standpoint, and praised the roadbed of the G. T. P. Mr. Ellison predicted a swift development for Prince Rupert and enlivened the faith of the government in the future of the city.

The fair is drawing people from all over the district.

AMERICANS BELIEVE VILLA MEANS THREAT

El Paso, Tex., Sept. 25.—Following the threat by Pancho Villa to kill all the American officials, work has been discontinued at La Boquilla dam project on the Conchos river in Chihuahua. One thousand Mexican laborers have been discharged and twenty American officials have started for the border. Villa sent word through American refugees that he was going to kill the American officials at La Boquilla.

NEW COUNSEL WANTED ON FREIGHT RATE CASE

Vancouver Board of Trade
Will-Interview Attorney-
General

Vancouver, Sept. 25.—Hon. W. J. Bowser, attorney-general, will be asked to give an interview at the earliest possible moment to representatives of the Vancouver board of trade in regard to the western freight rates question. This decision was reached at a joint meeting yesterday of the railway and freight rates and the land settlement committees of the board of trade.

The land settlement committee had gathered to discuss other matters, but joined with the freight rates committee so as to make the meeting as representative as possible when the importance of the matter at issue was explained. W. A. Macdonald, K. C., explained that having accepted the offer of a position on the bench he could no longer act as counsel on the freight rates question before the board of railway commissioners.

The western freight rates question was to have been taken up at Ottawa on September 29 at a special meeting of the commissioners called for that purpose. When it was learned here that Mr. Macdonald could not continue as counsel for the Vancouver board of trade and the province of British Columbia, a wire was sent to the commissioners asking for a delay. The delay has been granted. At Chairman H. L. Drayton intimated that this was the last delay that would be granted, and that as soon as other matters were disposed of the parties interested would be given ten days notice to get ready.

In view of this the decision was reached that it would be advisable to meet the attorney-general at the earliest possible moment so that new counsel could be obtained in time to allow of consultation with Mr. Macdonald before he takes his seat on the bench.

The question of proposing a method by which easier agriculture credits could be secured for farmers in British Columbia were discussed.

No final recommendations were made, but a suggestion was received which will be acted on. W. A. Blair was instructed to secure an appointment with Hon. W. T. White, minister of finance of the Dominion, who is expected to arrive in Vancouver shortly.

Inspired by the Australian system, it was suggested at the meeting that it might be possible to provide that the amounts deposited in the Dominion government's postal savings banks in British Columbia could be utilized for loans to agriculturists in this province. The money to be expended exclusively on improvements to farm property and under restrictions which would ensure absolute safety. It is to get further information of the possibilities of the working out of a scheme on these lines that the appointment with Mr. White, the minister of finance, has been asked for.

NANAIMO ACCUSED ARE REMANDED TILL FRIDAY

Nanaimo, B. C., Sept. 25.—Walter Pryde, W. H. Moore and Israel Rubinowitz, appeared yesterday afternoon before Magistrate Simpson to answer the charge of having, on the previous evening, at No. 1 mine, watched Sam Davies and other employees of the Western Fuel Company, constituting an act of intimidation contrary to the criminal code of Canada. The accused, on application of Crown Prosecutor Shoebottom, were remanded until tomorrow morning at 10 o'clock. All the other court proceedings were short.

ASK UNCLE SAM'S AID IN MEAT PRODUCTION

Chicago, Sept. 25.—Three resolutions designed to increase the production of meat were adopted by the American Meat Packers' association in convention today. The first calls the attention of the secretary of agriculture to the severe regulations of the industry, the second requests a government appropriation for the eradication of live stock diseases, and the third asks for direct government help in bringing about increased production.

KAISER DENIES PURCHASE.

Berlin, Sept. 25.—The North German Gazette prints official denial of the recent report that the Kaiser had bought considerable agricultural and other land in British Columbia.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle of Dandruff Right Now.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; or dandruff—that awful scourf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Dandruff tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Dandruff from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

NEW WATERWAY BILL BY ALBERTA PREMIER

Commencement of the Work
Planned for Dec., 1913, and
Finished Within Two Years

Edmonton, Alta., Sept. 25.—The act embodying the government's solution of the Alberta & Great Waterways difficulty was laid on the table in the legislature by Premier Sifton yesterday. It is called "An Act Respecting the Alberta and Great Waterways Railway Company."

The first clause of the act repeals the act passed in 1910 by which the funds of the A. & G. W. in the banks were declared to form part of the general revenue fund of the province. It then ratifies and confirms the provincial guarantee of the bond issue amounting to \$7,400,000 and authorizes the provincial treasurer to issue and deliver the bonds to the bondholders' trustees as soon as the same shall have been certified by a trustee in exchange of the single interim bond of \$7,400,000 heretofore issued.

The banks holding the money are authorized to pay over the money to such other banks as directed by order-in-council. The provincial treasurer is empowered to execute, on behalf of the province, an agreement indemnifying any bank from which the moneys are transferred against claims of bondholders.

Upon the act coming into force the province will be entitled to receive from the A. and G. W. the interest on the proceeds of the bond issue up to July 31, 1913, and upon such amount being received all defaults of the railway will be waived and annulled.

It also provides for an amendment to the A. and G. W. charter, providing that the work shall be commenced on or before December 31, 1913, and be finished within two years of that date. The act is to come into force on the proclamation of the lieutenant-governor-in-council.

BLACK WINTER IS FEARED IN GERMANY

Apprehension of Great Unemployment: \$250,000,000 a
Year is Spent on the Poor

Berlin, Sept. 25.—From all parts of the empire come reports of large cities and local government bodies beginning to make provision against unemployment in the coming winter.

In Berlin a strong committee dealing with the subject has already made arrangements for building works, drainage, etc., and also for the more perfect working of labor exchanges. Similar steps are being taken in Frankfurt, Breslau, Cologne, Munich, Leipzig and Dresden.

It seems to be the universal opinion that the trade boom of the past five years is at an end and that lean years are now inevitable. Efforts are being made to induce the railway department to forestall work on various lines.

A remarkable article in the "Norddeutsche Allgemeine Zeitung," draws attention to one class of work for the unemployed which has been too much neglected, namely, the cultivation of moors and waste places. The article points out that all systems of insurance against unemployment must be from the nature of the case, unsatisfactory.

Germany expends 50 millions sterling every year on its poor. Instead of decreasing, this expenditure increases year by year. But close to one's hand are the means of giving ample employment. There are thousands of square miles of waste lands and moors in Germany only waiting the labor of men's hands to render them fruitful.

What Forty Have Done.

One example is given where 40 unemployed Berliners have done wonders with a tract of land placed at their disposal by the state. They have cleared six acres of wood, and out of the thousands of trees cut down have manufactured simple furniture and fencing. The German Agricultural Society have given them manure, and with this they have turned 20 acres into good arable land. Other areas, suitable for residence, they have planted with trees; others again, with sandy soil, they have turned into asparagus beds. They have laid roads and simple railways on the land at their disposal. There can be no doubt as to the healthiness of the work, and it is in every sense reproductive.

RAILWAY CALAMITY IS DUE TO MAN FAILURE

Washington, D. C., Sept. 25.—"Man failure" all along the line from officials and directors of the New Haven railroad down to its trainmen, is held by the interstate commerce commission to have been the cause of the Wallingford wreck, September 2, in which twenty-one were killed and thirty-five injured. In this report, made public today, the commission blames the crews of the wrecked trains for lapses, and scores officers and directors for inefficiency of management.

NEXT GOVERNOR-GENERAL MAY BE LORD METHUEN

London, Sept. 25.—The post of Governor-General of Canada on the retirement of the Duke of Connaught has been offered to Field Marshal Lord Methuen. He is likely to accept.

PRINCE NOW STARTED ON PUBLIC CAREER

Heir to Throne to Tour Dominions When He Has Completed University Career

London, Sept. 25.—The Prince of Wales is shortly to have a home of his own. This is by the desire of the King, who is extremely anxious that his eldest son shall be prominently identified with the principality, and a house in Wales is being looked out for on his behalf, to be taken over after he has reached the age of 21.

In the meantime His Royal Highness's household is being gradually assembled. It was lately decided by the King that Sir Charles Cust, B. N., will be at its head, with Major the Hon. W. Cadogan as his principal assistant. From now on will be in due course the Prince of Wales' principal home.

Degree to Be Won.

In what is described as an authoritative statement on the Prince's future, the Daily Graphic says His Royal Highness is to remain at Oxford until the end of the summer term next year, when it is expected that he will have qualified for his degree. The King, however, is insistent that this shall not be passed to His Royal Highness as a matter of course, and that unless he has earned it the Prince shall be "ploughed" in the ordinary course.

As soon as His Royal Highness has completed his university career it is the

desire of His Majesty that he shall almost immediately begin a tour of the outlying portions of the British dominions. This is expected, so far as can be said at the present moment, to be in the spring of 1915.

His Royal Highness will be accompanied upon his tour by his brother, Prince Albert, and in many ways this trip will resemble the one which the present King and the late Duke of Clarence took on board the Bacchante. It is instructive, to notice that, owing to the great expansion of the British Empire since then, the tour is expected to occupy nearly a year.

Seat in the Lords.

The Prince of Wales may now be regarded as fairly embarked upon his public career. His presence at the wedding of King Manuel was the beginning of the many occasions on which he will formally represent the King; and his first official appearance at court will take place at the opening state function at Buckingham Palace in February next. During the coming year, too, His Royal Highness will take his seat in the House of Lords.

The Prince is very anxious to take another cruise with the fleet in his capacity as a Lieutenant. This may be arranged for him subsequently, though nothing has yet been determined upon in that connection. He will be given a commission in the Grenadier Guards when his Oxford career is completed, and almost simultaneously will be gazetted to the Royal Fusiliers, in which the King served his apprenticeship to the junior service. But there is no intention of his serving permanently in the army or navy.

Phone 864 for Good Millwood. \$3.00 double load. \$1.50 single load.

Baby Car Specialists, 758 Fort St.

THAW SENDS CHEQUE TO REPAY KINDNESS

Montreal, Sept. 25.—A cheque for \$50 has been sent by Harry K. Thaw to F. Garceau, an immigration officer at Coaticook for kindness shown to the Matteawan fugitive the day he was deported. Garceau was the man who ran to get an overcoat for Thaw on the cold morning when he was rushed across the boundary into the United States. Thaw sat shivering in an automobile and Garceau, noticing this, hurried into the station and got his own overcoat for him. Thaw sent a letter of thanks to Garceau with the cheque.

A Skin Tightener To Reduce Wrinkles

(From Popular Medicine.)

In beautiful culture, as in the treatment of disease, the tendency nowadays is to seek the removal of causes, rather than to treat symptoms or effects. In the matter of wrinkles for instance, we know that the lines or furrows are caused by the skin becoming loose in places, so it does not perfectly fit the flesh beneath. The skin then "wrinkles" or sags. Naturally the proper thing to do is to tighten the skin—make it fit—then there's no room for lines, wrinkles and folds, and no surplus skin to sag or bag.

The best known formula for the purpose is: Saxolite, 1 oz. in ½ pint witch hazel. Use as a wash lotion. The effect is truly remarkable, especially as results are immediate. Ask the druggist for the powdered saxolite, which dissolves more quickly than any other form.

ENRICHING "THE BOYS."

The disclosures in an examination for discovery in Vancouver in the action begun by Joseph Cole against Hamilton Read, arising out of the sale of the Kitsilano Indian reserve to the provincial government, reveal a scandal paralleled only by the Songhees Reserve transaction in this city. With regard to the suit itself, we have nothing to say at this juncture. It is in the courts and cannot be discussed, but one of the principals has described a deal which shows that the jugglery of the public funds in this city was not an isolated case and that the infamous patch still goes on.

Mr. Read, the defendant in the suit, said that he thought there was an excellent opportunity to make a large sum out of the sale of the reserve. It could be obtained from the Indians. So he called upon the attorney-general and asked him if the government would buy it. He received a "diplomatic" reply, from which he drew the impression that the matter would receive consideration. Subsequently he paid another visit to Mr. Bowser and that gentleman advised him to see Harry Alexander, who had been trying to induce the Indians to vacate the property. He saw Mr. Alexander, and ultimately, after considerable negotiation with the Indians, an option for ninety days was taken in Mr. Alexander's name, the stipulation agreed upon being something like \$220,000.

Thus the first bridge was crossed. The next was to transfer the reserve to the provincial government. This, apparently, was the easiest part of the transaction, and the property passed into the possession of the crown for \$300,000. The take-off, therefore, amounted to about \$80,000, and for his services Mr. Alexander rewarded Mr. Read with a "present" of half that sum. Mr. Read naively says, "It was very good of Mr. Alexander to make me the present."

These nauseating disclosures throw a great white light upon the mystery which has enshrouded the Kitsilano transaction from the first. It will be recalled that when the Hon. Frank Oliver inquired in the House of Commons for particulars of the surrender of the reserve, the Prime Minister replied that he had no information on the subject. This caused no little astonishment, because the Dominion government is the guardian of the Indians, and no surrender can be made by them except under the Indian Act, which provides among other things that the Superintendent-General of Indian Affairs must be a consenting and participating factor. We know that the consent of the superintendent-general had not been obtained for this particular surrender, for on May 26, 1913, Hon. Theo. Crothers, who was acting in that capacity, declared that it had not been given and added, "The Indians have no right to dispose of the reserve without the consent of the Dominion government." We are not concerned in the present discussion with the legality or illegality of the surrender. But we know now that the terms of the Indian Act were ignored and the legal guardian of the Indians side-tracked in order that Mr. Bowser's friends might make \$80,000 beyond all possibility of interference. The federal authorities might have insisted on the Indians getting the whole \$300,000 the government paid for the reserve and "the boys" would have lost a fortune.

If the provincial government wanted the reserve why did not its own officials negotiate directly with the Indians? Surely there must be somebody on the civil service list capable of accomplishing what the politic and diplomatic Messrs. Alexander and Read

were able to accomplish. If not, it is time the civil service was overhauled. Why should fortunes be diverted from the taxpayers' pockets to the account of private individuals every time there is a purchase of Indian lands by the provincial government? Two reserve surrenders—in Victoria and Vancouver—have cost the public the enormous sum of \$185,000 in hand-outs to political favorites, and one wonders how many more similar outrages are being perpetrated throughout this province. British Columbia is making a claim for "better terms" in the shape of increased financial assistance from the federal treasury. How can we hope to establish our case when the government uses the public funds for the enrichment of its satellites in this fashion? If this money must be spent it should be devoted to providing employment for the scores of men in the province who are finding it difficult to obtain the wherewithal to live.

How long is this sort of thing to continue, this manipulation of the public funds and insolent disregard of public opinion? We boast that this province is the most British of the confederation. It certainly is not British in its complacent indifference to political immorality. Such transactions as those of the Songhees and Kitsilano reserves would mean in England the ruin of a government, and perhaps worse for some of its members. Whole legislatures and municipal councils in the United States have been unseated and imprisoned for transactions which do not differ in ethics from those we permit in this province. How many raw dishes of this kind are the electors of British Columbia going to swallow without a revolt?

AT IT AGAIN.

There is no question about it: Mayor Morley is a very determined man. Some people might use another and less complimentary adjective as descriptive of His Worship's character, while others would probably retort that he is one man in the council who has the courage of his convictions. In any event, the Mayor has evidently made up his mind to achieve a certain end before time in its flight compels him to lay down the rod of office. Should the end not be attained by the end of the year, we should not be at all surprised if Mr. Morley were to announce that not having completed the work he has set his hand to do, his continuance in office for another term will be absolutely necessary. Consequently if any other alderman has been promised the succession or aspires to the chief magistracy, the wisest thing he can do is to stand behind the Mayor in the enterprise he has in hand, whatever it may be. Mayor Morley, by the way, has suspended City Clerk Dowler for the third time.

THE PROPER POLICY.

Sir Phillip Watts, adviser on naval construction to the admiralty, chairman of the federation of shipbuilding, and former naval architect and director of warship building in the great firm of Armstrong, Whitworth & Company, who has been visiting the coast, is a strong believer in a navy for Canada. In an interview given in the Vancouver Sun on Tuesday he said:

"I believe that Canada as a nation should have a naval unit consisting of battleships, cruisers and destroyers, which although connected with the imperial navy, should at the same time be capable of defending this country alone. This does not mean that the navy should stand alone without the support of the imperial navy, but that it should be capable of so doing."

"Canada," he said, moreover, "should have a naval unit. There is no reason why this country should contribute to the imperial navy fund. The country would then be entirely dependent on the mother country, and it is not an infant now and should be able to stand. Although always ready to stand for the mother country, it should not be wholly and solely dependent on it."

"It would cost much more to build warships in Canada, but a place could be found and competent naval architects and builders brought over to do the work. Canada should start at once, and if the Canadians were serious about it, the matter could easily be put through."

"The rumors regarding whether or not it is hard to get men for the navy are matters which I wish to dwell on. It was never easier to get men for the navy than it is to-day. We have many who wish to enlist and there is never any shortage, as most enter as boys and stay with us for good. As to Canada and her naval officers and sailors, I don't know, but with the right policy it should not be hard to get the men."

Here is the straight, outspoken opinion of a man who probably knows more about the practical aspect of naval organization than any living person. He tells us that we should proceed at once with the development of a naval unit, and although I would cost more to build ships in Canada than in Britain, it would not be a difficult undertaking, because builders in the Old Country easily could be induced to set up plants here. Sir Phillip apparently does not share Mr. Borden's opinion that "nothing of an effective nature could be built up in Canada in twenty-five or perhaps fifty years." He evidently believes Australia is pursuing the proper policy for

a self-respecting British dominion. "There is no reason," he says, "why this country should contribute to an imperial navy fund." Canada is not an infant and should learn to stand upon her own feet. This is Sir Wilfrid Laurier's view. It was the view of Mr. Borden four years ago before he pledged himself to the Nationalists of Quebec to abandon the very scheme Sir Phillip Watts so strongly approves.

TRAMWAY ACCOMMODATION.

The question has been raised whether there is an obligation on the part of the British Columbia Electric Railway Company to furnish seating accommodation for all patrons of its cars. There is certainly a moral obligation, particularly in view of the increase in transportation rates that has recently been brought into effect, but whether the company legally can be compelled to provide all passengers with seats at all times is another matter. We do not think there is a street railway concern in America that is under compulsion to do this, while we are almost sure there is not one in Great Britain that is not. We observe that the question has been brought before the Vancouver city council and that the Attorney-General of the province has been charged with neglecting to protect the interests of tramway patrons in the matter. The public will await with considerable interest any announcement the first law officer of the Crown may make respecting the legal features of the case. In the meantime we may as well look the facts in the face and admit that there will be some difficulties, particularly in cities of comparatively small population, in observing the letter of the law, if there be any law, on such a subject. There are times and seasons in Victoria—and we shall probably have a physical demonstration of the fact to-day—when to insist upon every patron of the cars having a seat would prove a serious inconvenience to the public. There are hours every day when there is a rush, and there are hundreds during these times who would rather participate in the crowding than wait a few minutes for succeeding cars. What ever resentment may be felt in regard to the change in fares should not close the eyes of reasonable people to the fact that no transportation company operating in a city of the size of Victoria could afford to carry rolling stock with sufficient seating accommodation to meet immediately all the demands on such occasions.

Israel Rubinowitz, former Rhodes scholar and now a Vancouver lawyer retained by the miners of Nanaimo in the intimidation cases, was arrested Tuesday on the charge of "watching" employees of the Western Fuel Company, constituting an act of intimidation under the criminal code. Yesterday, at the instance of the legal representative of the Crown, his case and the cases of others similarly charged were remanded until Friday, and the magistrate refused to grant bail. While there is absolutely no reason why Mr. Rubinowitz should be treated differently from the miners whom he is retained to defend, the refusal of the magistrate to grant bail in these cases seems to be an unnecessary hardship. Why men charged with watching the employees of the Western Fuel Company should be refused bail while others accused of much more serious offences obtain it every day, is one of those inconsistencies in the administration of justice not easily explained. The law of moderation is not applicable to the miners alone.

If it be a fact that the price of milk has gone down as far as the dairymen are concerned, how is it that the price of butter has not gone down correspondingly as far as the consumers of butter are concerned? What is the nature of the barrier that stands between the producer and the consumer and keeps up the price of milk and the articles manufactured therefrom? It would be very interesting to find out and to be informed as to the nature of the institution that grabs the "un-earned increment." The farmer fairly and laboriously earns all he can get for what he produces—and the customer of the farmer is entitled to protection from some quarter against the exactions of some mysterious middleman. Our economic system seems to have become altogether too complex or too highly organized for the comfort and welfare of the community.

If anyone undertakes to say that the law is a "hoax," don't believe it. The law thoroughly understands how to make the most of its opportunities. Look at what it has made out of Thaw, and that case is not at an end yet by any means. The paranoiac's trustees are suing some of the many lawyers who have made a good thing out of this malodorous case for an accounting, claiming that some fifty thousand dollars have disappeared from Ken without having been applied to any particular purpose. Pahaw! What signifies fifty thousand dollars when there are millions more to be drawn upon? The lawyers are doing good work. They are getting a few of the Thaw millions in circulation in a much more desirable manner than Thaw

Until October 1st.
We will sell our
Washed Nut Coal
at
\$5.50
Per Ton

This is the same kind of Coal you will be paying \$6.50 and \$7.00 for during the winter rush.

would have adopted, or rather continued, if he had been a Tree agent.

The London News and Leader, one of the foremost journalistic supporters of the present government in England, regards Mr. Borden's naval proposals with "emphatically expressed disapproval. Here is what it says:

"We have again and again pointed out that the result of his policy was to increase the burden on armaments on the British taxpayers. It thrust upon the people of these islands the heavy task of manning and maintaining three unnecessary dreadnoughts, and threatened to launch us once again on a wild career of unlimited naval rivalry. The whole spirit appears as vicious even when the assumptions on which they are based are less frail. We welcome any help the Dominion may choose to offer us of its own free will, but we are not going to beg for it, nor have our alleged necessities advertised and haggled over on colonial hustings."

The dairying business is overdone, says a stockman in attendance at the fair. It is being overdone to the extent that one of the creameries on Vancouver Island has reduced the price paid for milk. Surely it cannot be true that the price of a single article of food is going down in price! At any rate, if the price of milk is going down to the farmer, it is not going down to the ultimate consumer in Victoria. Perhaps it is in Vancouver, as we are assured that the cost of living all round there is not less than twenty-five per cent. lower than it is in Victoria. And at that Victoria is anything more favorably situated for the distribution of produce than Vancouver. Verily, we are a long-suffering people. The trusts have found us out—and we are theirs.

The government pays \$300,000 for the Kitsilano reserve and the Indians receive \$220,000. The middlemen get the rest. It is the old, old story. The public always gets the worst of it.

CONSUMER PAYS THE TAX.

Our intelligent legislature was confident that it could make the farmer pay the tax when it levied an impost on anthracite. It's possible that the foreigner will pay the tax on so much coal as he uses, but this depends upon the amount of competition the tax stimulates. It will probably stimulate the competition of bituminous coal a little, and to this small extent the tax may come out of the price. But the people of this state have just had it explained to them that on all anthracite they buy they will have to pay the 21 per cent. tax.

TO ENSURE WORLD PEACE.

The European powers are watching each other while they try to regulate their semi-civilized neighbors, without getting into trouble themselves. The United States is trying to keep out of war, while its government protects the interests of its citizens in Mexico, and makes its too lively neighbor keep the peace. On both sides of the ocean international problems are worrying statesmen. An international court of appeals, and an international constabulary to enforce its decrees seems the ultimate remedy.

CARELESS PARENTS.

One of the admitted evils of the day is a growing laxity of discipline. Boys and girls are given too much liberty, with the result that evil frequently befalls them. It is perhaps too much to say that the horrible death of Charley Dawson is a case in point, but the facts which have thus far come out show that although but 12 or 13 years of age it was not an unusual thing for him to be away from home overnight without his parents knowing where he was, and that on the very night of the murder he was thus absent and unfortunately fell into the hands of his murderer.

Women's Coats and Costumes

THE SEASON'S NEWEST STYLES

See View Street Windows

THE extraordinary large numbers of Women's Coats we sell at each succeeding Fall season, we attribute to the extensive range we carry and the exceptional values we are able to offer. This is entirely brought about by many years of practical experience in buying direct from the leading manufacturers in large quantities, and by paying cash, for which we receive special discounts and many price concessions.

This year our range of Fall and Winter Coats is unusually large, and while the styles are very attractive they have also been designed to give the greatest degree of comfort and warmth to the wearer. They come in a choice assortment of soft, spongy cloths, including diagonals, blanket cloths, tweeds, chin-chillas, curl cloths and ratines. Most of the styles are made with convertible collars that can be worn open or closed and the big buttons in two-tone effects are also very popular.

In the View street windows we are showing a splendid selection of these coats which represent the remarkable values being offered at

**\$13.75, \$15.00, \$17.50,
\$20.00 and \$25.00**

Novelty Coats in Futurist Patterns

We are also showing in the View street window a few very handsome models that come in the new and popular futurist pattern. These and many other extreme novelty styles are to be had in heavy wool coatings, chifon broadcloth and tailored serges at prices ranging from \$45 to \$55.00

Novelty Suits

VERY smart are the Novelty Suits that are also to be seen in the View street windows. They are the very latest novelties direct from the leading fashion centres. They come in various novelty styles, some showing Russian blouse effects, and others smart cutaways and draped skirts. All are trimmed with seal, Australian opossum or mole fur. For further details see these models in the View street windows. Prices range from \$45.00 to \$57.50

Big Crockery Sale Friday

SPACE will not permit our giving a full description here of all the lines that go on sale Friday. Most of the goods are displayed in the Broad Street windows, and you will gather a much better idea of the values these prices represent by seeing the goods than with any amount of descriptions we can give you here. The goods are their own best advertisement.

For That Spare Room.—Get a ten-piece toilet set for \$2.35, regular price, \$2.50. In fact all toilet sets have been cut by one-third. See our window. R. A. Brown & Co.

At One Time a Photographer Was Classed as a Mechanic—Now he is an artist. And just as artists follow distinct schools so do photographers specialize in certain classes of work. Wilfred Gibson's display of work in the assembly hall on the second floor of the Woman's Building at the Exhibition was selected so as to show two features of his style of photography, one the wonderful effects obtained by a new system of lighting founded on the system employed by the most famous painters of all ages, and the other his remarkable success in child photography. The pictures are arranged in three panels, two of which are devoted entirely to child photography. Mr. Gibson has achieved remarkable success in getting in his results the very soul of his subject, an achievement considered the very highest in painting. To attain this he pays special attention to the subject's eye while the photograph is being taken. It must always be clear and unclouded. Given this, skilful work in handling the plate and the print will do the rest. The truthfulness of life of Mr. Gibson's photographs is far beyond the average, and the likeness is recognizable at a much greater distance than in most pictures. His studio is on the top floor of the Central Building.

Princess Theatre.—If you want a good hearty laugh, see Two Johns.

Baby Car Spe fall-to, 755 For. St.

Roofs Made Fire-Proof by Newton & Gray Co., 1234 Wharf Street, makers of "Mac" Roof composition.

1,000 Flash Light Batteries just arrived at Hinton's. Fill your pocket light for fair week.

Two Johns with its excellent plot, and well worked out situations is one of the best comedies ever put on at the Princess Theatre.

"Shell" Gasoline Purity Means More Mileage.—Dispensed by the Red Sentry at 737 Broughton Street.

The Wizard Dustless Mop.—It collects the dust; it gets into the corners. It dusts floors, furniture, pianos and automobiles. Won't scratch, 54-in. handle. With 1-quart Wizard Polish, \$2. R. A. Brown & Co., 1302 Douglas Street.

Phoenix Beer Exhibit.—The artistic adherence to the old German beer garden type has won for the booth of the Phoenix Brewery much commendation in the Made-in-Victoria Building. German people especially comment upon the tasteful effect of the display.

Princess Theatre.—You cannot fail to enjoy yourself if you see the play of Two Johns, as presented by the Williams Company.

Cricketers to See Allen Players Farewell Performance.—The Australian and Cowlman cricket teams will attend the farewell performance of the Allen Players in "The Gamblers" at the Victoria Theatre this evening.

They were invited at the special request of Miss Felton, who takes a keen interest in all forms of outdoor sports, and whenever possible attends any match that may be going on. "The Gamblers" has aroused more enthusiasm from the audiences than any play produced by the company this season in Victoria. Enthusiastic applause demands a certain amount of self-forgetfulness and the story of this Kismet drama is an interesting one. It brings this state of affairs about very readily. Friday Miss Felton and the Allen Players start upon their tour of Western Canada, spending one or two weeks in each place, visited. When Moose Jaw, where an indefinite engagement is anticipated. Just at present the regret at leaving Victoria is overshadowing any thoughts of the many enjoyable times they will have while on tour.

Theosophical Coming.—A. P. Warington, general secretary of the Theosophical Society in America, will be in Victoria on Friday for two hours, when he will meet the local Theosophists and their friends, the meeting is arranged for 3 p. m., Friday at 1203 Langley street.

End of Coyotes.—The much-discussed coyotes at Beacon Hill park, about which complaints have been received from time to time from residents of the streets adjacent to the park, have been sent away in exchange for other animals, the chairman of the parks committee having been able to effect a satisfactory bargain by which the prairie wolves secure a good home in another zoo, while the park menagerie will shortly have more suitable occupants for the present restricted quarters.

Varying Rules of the Road.—The Vancouver Automobile Association is following the lead of the Victoria Association, having passed a resolution asking the provincial government to take a plebiscite at the next general election on the question of the rule of the road. It was pointed out by several speakers that there is great inconvenience and danger to automobile drivers, accustomed to the "rule of the right" in the United States and the eastern provinces of Canada, when they encounter the "rule of the left" in British Columbia. Not only did it prove troublesome to visitors to British Columbia, but residents of this province were equally embarrassed when they attempted to drive a car in the United States.

Phoenix Beer, \$1.50 per doz. qts.

Bank Clearings.—The bank clearings for the week ending yesterday amounted to \$3,242,505, as compared with \$3,113,497 in the preceding week.

Local Council of Women.—The attention of the societies affiliated with the Local Council of Women is called to the fact that resolutions intended for consideration at the annual meeting ought to be sent in as soon as possible to the executive.

Athletic Club Dance.—The Capital Athletic Club are holding their opening ball Monday, October 27, at the Alexandra Club. The committee are regarding the invitation list for the coming season and request all those wishing invitations to leave their name and address at Bissell's clothing store.

Accident Not Reported.—For failing to report a motor-car accident in which a boy had been injured H. A. Gayler was yesterday fined \$10 by the police magistrate. The accident happened on September 15 at the corner of Moss street and Fairfield road. Gayler reported the affair three days later.

Programme, Women's Building.—The daily programme being given during the final days of the fall fair at the Women's building, includes among other things, several illustrated talks. W. H. Collins will give an address every evening for the rest of the week at 8 o'clock on "Bees and Their Ways," illustrating his lecture with slides. At 11 o'clock daily there will be a demonstration of dressmaking by Madame Grobe, and at 10 o'clock daily a hair-trimming contest conducted by Mrs. Campbell. To-morrow at 1 o'clock, there will be a bread-judging competition, and at 4 p. m. on Saturday Mrs. Heim will speak on the subject of Memory Training.

Northwest Trunk Sewer.—Owing to the fact that the present sewer is a difficult one in which to get a meeting together, there will not be a session of the special committee of the city council on the northwest trunk sewer till the beginning of next week. An attempt will be made to meet the Saanich council and also the Esquimalt council then, and present the case to them for consideration, and also for decision on the principle of a separate sewerage system. In Esquimalt the scheme proposes to drain 953 acres by gravity, and in Saanich 439 by gravity, and 136 by pumping. The latter is recommended upon the combined system, so far as that by gravity is concerned.

Cow Test at Exhibition.—The two-day cow test at the exhibition was begun this morning, when samples of the milk from over 20 cows were taken. The contest was milked at 4 o'clock. The test calls for four milkings, at 4 a. m. and 6 p. m. on both days, Thursday and Friday. The tests this morning were the best ever held. Lady Smith Daisy, of Braefoot Farm, with 24 pounds, showed the best results, the next figures being 23½ pounds. Both quality and quantity of milk are considered. One test is for the greatest amount of butter fat. These tests have always been a most interesting feature of the Fair to the dairy men, and their value is undeniable. The results will probably not be known until Saturday.

Bunce Games at Fair.—On receiving complaints that several people had been "buncoed" in apparent games of chance at the Exhibition grounds Chief Handley, of the Oak Bay police, forced a visit to all the games complained of, and after making a careful inspection closed up no fewer than six. The proprietors were given no longer time in which to remove their presence from the grounds. Charges would have been laid in one or two cases, but the complainants neglected to leave their names with the police and could not afterwards be found. The games closed up were wheel and marble games, which on the face of them appeared to be quite simple. Observation disclosed, however, that stool pigeons were being placed in place to place attracting crowds by their big winnings, and in this way enticing innocent parties to indulge in a bet or two. These unfortunate always lost, however, and in some cases by doubling their bets a few times the sums were very considerable.

DO YOU? YES WE MEAN YOU

Do you ride on a local train when you can get a fast express?
Do you write when the telephone is at hand?
Do you walk when a fast street car is available?
Do you light your house with candles when you can use electricity?
But—
Do you get the full service out of this your favorite daily newspaper?
Do you know that the so-called news of the day, the social events, the sports, the disasters are only one side of it?
Do you realize that often the things of most immediate and personal interest to you are told in the advertising?
The advertising columns of THE TIMES are as much a creature of public service as the telephone or fast express.
They bring opportunity to your threshold—Open the door and let him in.

A LINE O' CHEER EACH DAY O' TH' YEAR

By John Kendrick Bangs

TO THE TOILER.
When tasks are hard upon the upward slope
That is the time that calls for cheer and hope.
'Tis when the summit's reached and all seems clear
'T were well to ope the heart to thoughts of fear.
So courage take, as on the rocky road
You upward toil, nor bend beneath your load
Fear not the dangers imminent and grim—
He's far worse off who's naught ahead of him.

OFF TO JAPAN

Sir Phillip Watts, British Naval Adviser, Left on Empress of Japan to Visit His Son.

Sir Phillip Watts, K. C. B., the well-known adviser on naval construction to the British Admiralty left yesterday on the Empress of Japan for the Orient to visit his son who is resident in the Land of the Mikado. Sir Phillip Watts, K. C. B., F. R. S., is 53 years of age, and was educated at the College of Naval Architecture. He was a constructor for the Admiralty until 1885, when he joined the firm of Armstrong, Whitworth & Company, and was in charge of the warship building department of that company. In 1901 he was offered and accepted the post of director of naval architecture to the Admiralty, a position which he filled until 1911 when he retired and was appointed adviser to the Admiralty on Naval Construction. He is the officer commanding of the First Northumberland Volunteer Royal Garrison Artillery, chairman of the Federation of Shipbuilders and is a prominent Freemason. He married the eldest daughter of Chevalier Gustave Simonneau and has two children. Lady Watts accompanied the Elswick battery to South Africa and remained there throughout the war. Sir Phillip was created a knight in 1905 in recognition of his services to the Admiralty.

"THE BELLS"

Play Made Famous by Sir Henry Irving at Kinema-color Theatre

In direct line with the growth of the introduction of well known artists into the world of screen pantomime, is the Reliance Company's presentation of Edward F. Sullivan in "The Bells," which no doubt will be thoroughly enjoyed by patrons of the Kinema-color theatre to-day, to-morrow and Saturday.
Mr. Sullivan is an actor of recognized ability and of the many great characters he has portrayed, that of "Mathias" in "The Bells" stands out as his masterpiece. The several seasons he used "The Bells" as his starring vehicle were most successful from a financial as well as an artistic standpoint.
The very fact, with Mr. Sullivan in his favorite role as "Mathias," "The Bells" offered a rare opportunity for a splendid two reel feature production, therefore every effort was put forth to produce an offering that would be a real event in the history of the picture pantomime art, the result being a great noteworthy success.
Story Well Known.
The story of this powerful drama which is well known all over the civilized world, is even better adapted to picture than it is to stage production. By double and triple exposures, the desperate crime committed in the blinding snow storm is magnificently handled—thanks to the genius of Director Oscar C. Apfel, who staged the presentation—and the wonderful scenes in which "Mathias" is haunted by an awakened conscience and the fear of exposure, with the remarkable climax that closes the story, are presented with realism only made possible by a combination of masterful direction, artistic acting and scientific work with the camera. In addition to the above feature, "Barnyard Pets" and "Ancient Rome" is being shown in Kinema-color. A comedy entitled "Leopold and the Leopard," forms part of the programme, as does a Lubin entitled "The Wiles of Cupid."

Lampson Street School.—The corner stone of the new Lampson Street school will be laid on Saturday afternoon at 3 o'clock by Hon. H. E. Young, minister of education.

Shipping News from Day to Day

SHIP WITH CHOLERA ON BOARD SLIPS BY

Canada Maru Got by Quarantine Officials at Nagasaki but Was Held Up at Kobe

Cholera was gaining a good footing amongst the passengers and crew of the Osaka Kaisha liner Canada Maru, Capt. Hori, before it was detected by medical authorities, according to word brought to this side of the Pacific by the steamship Tamba Maru, which berthed yesterday from the Orient. The ship's doctor did not discover that the three patients he was treating for a trivial derangement of their digestive organs had cholera and consequently the vessel passed several Japanese ports before she was finally placed in quarantine at Kobe. Three persons had been affected when she arrived there and two other cases were detected later. The Canada was detained two weeks and is now on her way to Victoria from Yokohama.

The Osaka liner had picked up a number of passengers at Hongkong and Shanghai and when she called at Nagasaki a first-class lady passenger complained of being unwell and she left the ship there to stay with friends. The same day two of the members of the crew, one an engineer, called on a shore doctor to be examined and they were placed in an isolation hospital. The ship's doctor, however, declared the ship free of disease and she was cleared for Kobe. The authorities at Nagasaki sent telegrams to the other Japanese ports telling that three cases of cholera had been discovered on the Canada. The Maru passengers were thoroughly examined on their arrival there and the ship was ordered fumigated. Two other cases had developed on the run from Kobe.

Held Investigation at Kobe. Owing to the manner in which the Canada cleared from Nagasaki the Japanese head government officials ordered an investigation held. Capt. Hori, master of the ship, and the quarantine officials at Nagasaki were called to give testimony so that the board might determine their responsibility for the affair. The shore officials at Nagasaki were given a great deal of trouble as they had to find out the houses, stores and places which the three persons who disembarked had visited, and carry out disinfecting measures. The result of the inquiry has not been given out yet.

NIPPON LINE RECEIVING NEW LINERS THIS MONTH

Yokohama, Japan, Sept. 25.—As already reported, the Nippon Yusen Kaisha has placed orders with different shipyards for the construction of several large ocean-going vessels, with a view to coping with the changes in the situation arising from the opening of the Panama Canal. One of these vessels, which has a gross tonnage of 25,000 tons and is to be named the Kashima Maru, has just been launched at the Kawasaki Dockyard, Kobe. It is expected the Kashima Maru will start on her maiden voyage to Europe in November.

OIL BARGE IS FLOATED.

San Francisco, Sept. 25.—The Union Oil Company's barge Simla, which went ashore yesterday at Point Gorda, was floated early to-day by the steamers Nann Smith and Adeline Smith and is being towed back to San Francisco by the Adeline Smith.

MET VESSEL HAVING HARD TIME CROSSING

Tamba Maru Sighted British Freighter in Mid-Pacific Smothered in Foam

Ploughing into a heavy head sea and burying everything forward at times in the great combers, a British freighter was sighted in mid-Pacific by the officers of the Nippon Yusen Kaisha liner Tamba Maru, Capt. Teranaka, which berthed here from the Orient yesterday afternoon. The vessel was evidently laden with a full lumber cargo, and she had a huge amount of timber lashed on deck. Officers of the Tamba Maru said the ship was making bad weather of it and was slowed down to about three knots an hour.

The gale which was blowing at the time was favorable to the Tamba, and consequently did not bother her, although several following seas managed to find their way over the poop. For the ship, however, things were not going so pleasantly, especially with the high-piled deckload threatening to break loose at any moment.

The Tamba passed the freighter about a mile off, one day's steaming before crossing the 180th Meridian. The sun was just setting and the picture of the heavily-laden craft poking her nose into the great seas, throwing spray in every direction, and the sun tinting the crest of the waves, and the splintering of the water, was a sight to be remembered. The weather was exceptionally pretty. If the weather became worse it was feared that the freighter might be in bad straits. The weather was not so severe, but the freighter was slowed down to about three knots, so if the typhoon was struck off the Japanese coast it is more than likely that the vessel got into difficulties.

VENTURE BRINGS NEWS OF BURIAL OF SLAIN INDIANS

Returning from an uneventful cruise to northern British Columbia ports the steamer Venture, Capt. Parks, arrived in port last evening, and after taking on some passengers and a little freight sailed again at midnight.

The Venture brought news of the funeral of the Indians slain at Kimsquit in the battle of two weeks ago. Before any of the Indians were allowed to touch the bodies to prepare them for burial, their hands were carefully examined. This precaution was necessary owing to most of the Indians having sore hands from handling nets. Three men were found with their hands in good condition, and with the assistance of Dominion Constable Tucker and a Japanese, the bodies were prepared for burial. The coffins were placed in boats, and with an Indian band playing, the procession wound its way down the river to the ancient burial ground at Salmon river. The burial service was carried out to the accompaniment of wailing and lamentations.

POLAR CRUISER DUE HOME.

Quebec, Sept. 25.—The Arctic schooner Elfee Maud, which took Capt. Bernier and his crew on his fifth expedition to the polar regions, is on her way back to this port from which she sailed two years ago. This fifth expedition of Captain Bernier was not subsidized by the Canadian government, as were the three previous. It was merely a commercial enterprise and had but little to do with the exploration of the polar seas. Capt. Bernier and his crew are expected here this afternoon.

It is computed that in the two Balkan wars some 300,000 men perished and £20,000,000 was spent. Of the men, Turkey lost 110,000 and Bulgaria 120,000.

COAST'S BEST YACHT TAKES FIRST PLUNGE

Cyprus, Worth \$500,000, is Launched at Seattle; is Most Magnificent Vessel

Seattle, Sept. 25.—Greatest of all the pleasure craft built on the Pacific coast and surpassing in many respects the efforts of the world's most famous naval architects, the palatial private yacht Cyprus, building for Daniel Cowart Jackson, of Salt Lake City, at the plant of the Seattle Construction and Drydock Company at a cost of \$500,000, took her first dip in the waters of Elliott Bay yesterday afternoon. The beautiful craft was christened by Miss Mildred Scott Bone, who broke a bottle of champagne over her head as she gracefully down the ways.

On the launching platform was an assemblage of representatives of Seattle's business and social life, of North Pacific shipbuilding corporations, marine underwriters, over-ocean steamship companies and the United States army and the navy of two countries.

The vessel is 231 feet long with 30 feet beam and when loaded will draw fourteen feet. She was designed by Irving Cox, of the firm of Cox & Stevens, of New York, and has been built under the supervision of Mr. Cox. The Cyprus will have a speed of 18 knots and is propelled by two four-cylinder triple expansion engines, with a total horsepower of 3,500.

No Expense Spared.

Though the forests of Africa, India, Borneo, Central China and Thibet were scoured for the finest examples of mahogany, teak and other hard and ornamental woods, and though the other materials used in the construction of the craft were obtained from localities specially famous for particular species, the expenditure on the vessel to the smallest details have been handled exclusively by local firms. The magnificent interior furnishings and decorations have been done by Frederick & Nelson, and they form perhaps one of the most alluring attributes of the whole vessel. Everything both inside and out on hull, house and rigging is the very finest of its sort which can be devised.

The dining saloon is on the main deck forward, built of steel, 54x15 feet, and finished entirely in hand-carved Burmah teak. The wood was specially imported for the Cyprus and the furniture was especially designed by the architect, all in hand-carved teak. Opposite the main stairway and the after end of the dining-room is the butler's pantry, equipped with all modern appliances, including cold storage, electricity, telephone to all rooms, bells, etc. There are five large guest staterooms, each with connecting bath, the staterooms being finished in enameled white with dark mahogany furniture. In the main hall or run room, with racks for thirty guns and revolvers, places for stowing fishing tackle, ammunition and harpoons, and all hunting gear. An observation door permits the owner and his guests to observe the working of the machinery. The music-room and library are both handomely finished.

STEAM SCHOONER ON ROCKS.

San Francisco, Sept. 25.—Dispatches to the chamber of commerce to-day report that the steam-schooner Inca, bound for San Francisco from Coos Bay, ran on a rock last night off Saunders Point and was disabled. She will be towed to San Francisco.

SUPREMACY RACE FOR (AUSTRALIAN BUSINESS)

Companies Are Building Great Ships for Service; Race Similar to That on Atlantic

During the past five years there has been witnessed a grueling struggle for supremacy on the high seas between the different steamship companies. The race for a time was confined to the Atlantic ocean, but a couple of years ago the fever for high honors was contracted by the companies operating liners on the Pacific and Indian oceans. Although the day of big ships in the trans-Atlantic trade between English ports and New York is believed by shipbuilders to be about at an end, the boats still continue to grow in the British Isles-Australian and Oriental sections.

The C. P. R. now holds the undisputed title of having the biggest ships in the Oriental trade, following the building of the two giant liners Empress of Russia and Empress of Asia. The Toyo Kisen Kaisha formerly held the blue ribbon in the race with its big two-deckers, Chiyu Maru, Shikyo Maru and Ono Maru. On the Atlantic the fever for big ships has practically died out leaving the White Star line with the premier honor, through the building of the Aquitania.

Australian Race Lively. The race for supremacy in the Australian shipping business continues apace, and is now attracting much interest in every part of the world. The companies are losing the coveted prize to each other with much frequency.

When the Nestor of the Blue Funnel line, which is 14,500 tons, and has a length of 530 feet, made her maiden voyage from London to Sydney last month she was the biggest vessel in the Australian trade. Her sister-ship the Ulysses, is to go into service very shortly. The White Star line, however, has just placed the Coranda, 18,000 tons in service, and has ousted the Nestor and the Ulysses from pride of place. In order to regain the ribbon the Blue Funnel officials have just ordered Workman, Clark & Co., Ltd., of Belfast, to build for them two 20,000-ton ships with a length of 650 feet.

The Blue Funnel people started the race about two years ago when they decided to go after the Australian business and placed the three fine passenger steamships Aeneas, Anchises and Acanthus, all of which all 10,000-ton ships. The Australian trade has developed remarkably in the past few years, and all the companies competing in the service are doing a very lucrative business.

DESPITE HARD PULLS LINER REMAINS FAST

Mount Temple Does Not Yield to Powerful Pulls; Pilot Nor Captain Will Talk

Montreal, Que., Sept. 25.—Superintendent Elliott, of the C. P. R. marine department, stated this morning that the liner Mount Temple, which went to sea yesterday, was in no danger and that efforts to pull her off will be continued all day, but that it is improbable that she will be pulled off before tomorrow morning at the earliest. During the night she shifted to the south somewhat. Rivermen think that the banks of the channel may have shifted slightly to the north unknown to navigators.

Until the extent of the damage is ascertained it is not known whether the Mount Temple will be taken into the Duke of Connaught dry-dock or not.

Captain Will Not Talk.

"I shall make no statement to the newspapers or to the public until the inquiry is held by the wreck commissioner," said Capt. Moore, aboard his vessel yesterday. "All I can say is that the morning was a bit foggy and that now we are making all haste to lighten the cargo and examine the extent of the damage."

The pilot, Capt. L. Z. Bouille, also preferred to await the decision of the inquiry to make statements, and it is likely that an inquiry will be opened by Capt. Lindsay, of the Dominion wreck commission, as soon as the Mount Temple is examined as to her damage. Members of the crew were settled down over the river just after daylight must have convinced the pilot. They were certain, however, that the ship could not have gone more than forty feet off the regular channel as no serving to the south was noticeable. The Longueville mud or sand banks, situated just opposite the dry-dock at Maisonneuve and below the Tarte pier, have long been one of the most vexatious problems for navigation in the harbor. The gas buoy, near which the Mount Temple struck bottom, was found on investigation, to be in the correct position. This was confirmed by C. P. R. officials who make an independent examination.

AIDS TO NAVIGATION.

On account of harbor improvements the present dolphin at Shoal Point will be discontinued and the red light will be shown on a new dolphin about 200 feet in a southerly direction from its present position. The actual date with description will be furnished at least 48 hours before the change is made.

GOOD TEMPLARS CLOSE ANNUAL CONVENTION

Election of Officers Results in R. Balmer's Appointment as Grand Chief Templar

The feature of yesterday afternoon's session of the Grand Lodge of Good Templars was the election of officers for the ensuing year. This resulted in the following being chosen:—Grand Chief Templar, R. Balmer, Vancouver; Grand Secretary, Andrew Pender, Nanaimo; Grand Treasurer, S. Gough, Nanaimo; Grand Councilor, E. Laurin, Vancouver; Grand Vice-Templar, Mrs. Severin, Vancouver; Grand Elector Superintendent, Carl F. Timms, Vancouver; Grand Marshal, William Gladstone, Victoria; Grand Chaplain, Rev. R. Wilkinson, Colquitz; Grand Vice-Chancellor of Educational Courses, R. MacNiel, Victoria; Grand Chief Guard, W. Richardson, South Wellington; Grand Deputy Marshal, Mrs. W. H. Murfitt, Penticton; Grand Sentinel, Rev. J. P. Hicks, Victoria; Grand Messenger, A. A. Dougan, Cobble Hill.

During the afternoon the committee on membership reported, this showing a gratifying increase during the year just past, Victoria especially had made great progress, with a total increase of twelve months of over 200 members. This was largely due to the formation of a new lodge, Victoria District Lodge No. 2, and the provincial membership now stood at close upon 2,000.

The provincial government will be asked, as a result of a resolution passed by the committee on political action, to take special measures for controlling the sale of cider and other so-called temperance drinks on unlicensed premises.

The convention was brought to a close last evening with a banquet served in honor of the visiting delegates and other Good Templars, the district lodge of Victoria being the hosts. W. Gladstone, district chief of Victoria and Grand Marshal of British Columbia, acted as chairman, and just prior to the banquet Rev. C. W. Whitaker conferred the degree of the international Supreme Lodge on a class of sixteen candidates.

Short addresses were given by those called on to respond, to the several toasts. The loyal toast to the King was responded to by the district lodge, who sang the National Anthem. Brother Waugh, grand superintendent of juvenile work, proposed, and Mrs. McPhie, of Vancouver, past grand chaplain, responded to the toast of "The Ladies." Andrew Pender, who spoke in his happiest vein, proposed the toast of "The Returns." Officers Templar, responding in a reminiscent manner, Rev. J. Tate proposed the health of the Grand Lodge of B. C., stating that he was present at its birth in this province in 1866. The new Grand Chief Templar also spoke briefly, others who contributed to the programme in a similar manner including the superintendent of juvenile work, the district superintendent of juvenile work, and the district secretary.

A short musical programme was given during the evening, including a singing solo by Miss M. Carruthers and vocal solos by Mrs. Hawkes and Mr. Macdougall. About 300 delegates and members of the order attended the banquet, many of whom returned by the night boat to the mainland, while others left this morning for Nanaimo and other points up the island.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Sept. 25.—5 a.m.—The barometer remains comparatively high, over this province, and fine, warm weather continues throughout the Pacific slope. It is also fine, with frosts at night, from Alberta eastward to Manitoba.

Forecasts.

For 24 hours ending 5 p.m. Friday.

Victoria and vicinity—Light to moderate winds, mostly northerly, continued fine and warm.

Lower Mainland—Light to moderate winds, continued fine and warm.

Reports.

Victoria—Barometer, 30.05; temperature, 44; minimum, 44; wind, 4 miles N.; weather, clear.

Vancouver—Barometer, 30.10; temperature, 46; minimum, 46; wind, 4 miles E.; weather, clear.

Kamloops—Barometer, 30.20; temperature, 46; minimum, 46; wind, calm; weather, clear.

San Francisco—Barometer, 30.02; temperature, 55; minimum, 56; wind, 4 miles W.; weather, clear.

Prince Rupert—Barometer, 29.98; temperature, 48; minimum, 48; wind, 4 miles N. E.; weather, clear.

Edmonton—Barometer, 30.08; temperature, 34; minimum, 34; wind, calm; weather, clear.

Winnipeg—Barometer, 30.08; temperature, 40; minimum, 40; wind, 4 miles N.; weather, cloudy.

Victoria Daily Weather.

Observations taken 5 a.m., noon and 5 p.m., Wednesday.

Temperature.

Highest 49

Lowest 46

Average 46

Bright sunshine, 10 hours 5 minutes.

General state of weather, fine.

WEEKLY WEATHER REPORT.

Victoria Meteorological Office.

From 17th to 24th September, 1913.

Victoria—Total amount of bright sunshine, 99 hours and 24 minutes; rain, 10 inches; highest temperature, 71 on 20th; lowest, 42.5 on 19th.

Vancouver—Total amount of bright sunshine, 67 hours; rain, 31 inches; highest temperature, 67 on 20th; lowest, 41 on 22nd.

New Westminster—Rain, 36 inches; highest temperature, 72 on 20th; lowest, 40 on 22nd.

Kamloops—Rain, 42 inches; highest temperature, 72 on 20th; lowest, 36 on 23rd.

Parkerville—Rain, 1.62 inch; highest temperature, 70 on 20th; lowest, 36 on 23rd.

\$1,000 REWARD

The superintendent of education made a special journey from Victoria purposely to take a leading part in the opening of the new high school at Chilliwack last week. He presented the Governor-General's medal to Miss Fox.—Chilliwack Progress.

Pity Chilliwack

This superintendent stated over his signature in 1908 that the Governor-General's bronze medals were offered in competition where a high school had been established. The minister of education, in answer to questions in the Legislature proved that Ladysmith had got a medal three years in succession though it had no high school; also that Chilliwack had not got a medal those three years though it has had a high school since 1903.

Pitiful

Major A. L. Coote was chairman at the entertainment given in the assembly room of the new high school the evening of the opening at which this superintendent gave a speech. (Progress).

The Minister of Education in 1908 informed Major Coote that those medals were given where there was the most competition at the entrance examinations—ON INFORMATION SUPPLIED BY THE SUPERINTENDENT. By means of this false explanation Major Coote departed perfectly satisfied.

Facts

Chilliwack has had a high school since 1903. In 1906 Chilliwack school district passed up 14 pupils to the high school and got no medal, though these 8 districts, Kamloops, Vernon, Fernie, Grand Forks, Cumberland, Ladysmith, Kaslo, and Trail, each got one with less than 14 passed up. In 1907 Chilliwack (rural) passed up 18 pupils and got no medal; though these 10 districts, Rossland, Revelstoke, Ladysmith, Grand Forks, Vernon, Kelowna, Kaslo, Kamloops, Cumberland, and Golden, each got one with less than 18 passed up.

In 1908 Chilliwack city passed up 17 pupils and Chilliwack (rural) passed up 15, yet neither got a medal; though these 8 districts, Vernon, Revelstoke, Ladysmith, Rossland, Golden, Grand Forks, Kaslo, and Kelowna, each got one with less than 15 passed up. Chilliwack (rural) was also entitled to a medal in 1910, 1911 and 1912.

Eye Opener

In 1908 this superintendent stated at Revelstoke that those bronze medals were given to the districts that sent up the most pupils at the high school entrance examination. I then and there asked Major Coote if this was the same as had been given to him at Victoria. He replied, yes, practically the same. On account of this false explanation, NO RESOLUTION about the manner of distributing those medals was presented to that Trustee Convention.

\$500 Reward

The Minister of Education, in reply to a question by a member of the Legislature, denied that his superintendent gave the above explanation at Revelstoke in 1908. I shall pay five hundred dollars to the hospital at Chilliwack when any one will prove on oath that the Minister's denial is the truth. When this is proved it will also clear the Premier from the charge of retaining as one of his colleagues a Minister who gave false information to the Legislature.

Another \$500

I shall pay five hundred dollars to any hospital in British Columbia when the correct answers to NEARLY ALL of the 10 questions set out herein are handed to me with the pages of the last Annual Schools Report on which these answers are to be found. The finder of the answers to name the hospital. This Report is to be found at the Carnegie Library in B. C. Sessional Papers 1913.

The Ten Questions

1. Did his Royal Highness, the Governor-General, indicate the manner in which he wished his first ten bronze medals to be distributed among the school districts of this province in 1912? If yes, what was it?
2. Did His Royal Highness, the Governor-General, name the school districts to which his twelve additional bronze medals should be given in 1912? If yes, what were they?
3. How many pupils passed the High School entrance examination in the school year 1912 (a) in South Vancouver School District, (b) in Spallumcheen, (c) in North Vancouver City, (d) in Vernon, (e) in Saanich?
4. How many credit marks did the best scholar get at the High School entrance examination in the Spallumcheen School District in the school year (a) 1908, (b) 1909?
5. How many credit marks did the scholar get at the High School entrance examination in Spallumcheen School District, to whom the Governor-General's bronze medal was given (a) in 1908; (b) 1909?
6. How many credit marks did the best scholar get at the High School entrance examination in the school year 1906 (a) in the province, (b) in the City of Enderby, (c) in the City of Trail?
7. How many pupils passed the High School entrance examination in the school year 1906 (a) in Enderby, (b) in Trail?
8. How many pupils passed the High School entrance examination in the school year 1909 (a) in the City of Cumberland, (b) in the City of Enderby?
9. How many pupils passed the High School entrance examination in the school year 1910 (a) in Spallumcheen, (b) in North Vancouver City?
10. How many pupils passed the High School entrance examination in the school years 1907 and 1908 respectively (a) in Golden, (b) in Spallumcheen, (c) in Chilliwack Rural (d) in Chilliwack City?

Encouragement

This superintendent of education, on February 4, 1913, informed me, on behalf of the Premier, that he was of the opinion that the answers to nearly all those ten questions could be found in that Report, and he ought to know.

Graciousness

H. R. H. The Duke of Connaught.

H. R. H. the Duke of Connaught very graciously forwarded to British Columbia 12 additional

medals last year, making 22 in all, which I, on behalf of the school children had asked, for the 12 districts entitled to them, so as to include Langley, which four times during Earl Grey's administration should have got one, but did not.

Scandal

Sir Richard McBride informed me that His Royal Highness had named the 12 districts to which he wished those 12 additional medals to be given. His Royal Highness is thus blamed for the scandalous distribution of last year. Not one of those 12 medals was given to the districts for which they were asked. His Royal Highness, according to a memo in Sir Richard's letter, sent a medal for Prince Rupert, where he did not see the school children; but none for Burnaby, where the school children were assembled to welcome him and he led them in singing the National Anthem. Burnaby was also entitled to one on the principle of most competition and Prince Rupert was not. Eight cities each got two medals, thus lowering these prizes to the level of stick-pins or brooches.

Which Is It?

By not answering question 2 this superintendent is shielding either H. R. H. the Duke of Connaught or Sir Richard McBride.

Truth Will Out

Sir Richard McBride informed me on 24th September, 1912, that the list of winners of these medals had already appeared IN THE PUBLIC PRESS in August. A letter dated October 15, 1912, signed Alexander Robinson per G. C., was shown to me, in which this occurs: "NO LIST of the pupils entitled to receive the Governor-General's medals for 1912 has been published. This list will appear in the Annual Schools Report, which will soon be in the hands of the Press." Another letter dated October 18, 1912, signed Alexander Robinson, was shown to me, stating that the other letter had been sent in his absence; also this: "The list of these winners was handed to a representative of a B. C. newspaper either late in July or early in August, and WAS, I PRESUME, PUBLISHED in several of these papers."

\$500 Paid

A reward of \$500 was offered for proof of the publication in August in any B. C. newspaper. The Kamloops Standard claimed it and it was paid to the Revelstoke hospital. The education department was thus shown to have kept the list practically a secret, and that a semi-weekly published in the interior more than 300 miles from Victoria was THE PUBLIC PRESS.

The Remedy

Let every Conservative ease his conscience by voting against the McBride government and by asking for sufficient medals for the past seven years cast in some other metal than bronze.

On behalf of the pupils of the public schools of British Columbia,

J. N. MUIR

Sandwich, Sept. 22, 1913.

NORTHWESTERN

MEETS SUNDAY

Decision Will Be Reached on Portland Franchise; Swain for Sacramento

Secretary McConnell, of the Victoria Baseball Club, will leave for Seattle on Saturday to attend the Northwestern League meeting which Fielder Jones has called for Sunday next at 7.30 p. m. It is expected that the league president will have something definite on stand that the Coast Clubs have taken with regard to a Northwestern League team in Portland next year, and it is rumored that the Coast Leaguers have withdrawn their objections to the McCredie's owning two clubs.

Champions of Past Years.

This makes the second pennant that Bob Brown has brought to Vancouver. Two years ago Bob bossed the team that was at the top of the heap at the end of the campaign and now he has repeated. This is Vancouver's third pennant in this league, which is better than any other city has ever done. Putte won it twice and so did Seattle, but no other city ever won the pennant more than once. A. R. Dickson won Vancouver's first pennant in 1905. The league has been in existence now for thirteen years and here is the list of champion clubs since the league was formed in 1901:

1901—Portland.
1902—Putte.
1903—Putte.
1904—Ruthe.
1905—Everett.
1906—Tacoma.
1907—Aberdeen.
1908—Vancouver.
1909—Seattle.
1910—Spokane.
1911—Vancouver.
1912—Seattle.
1913—Vancouver.

Charlie Swain will leave this week for Sacramento, Cal., where he will finish the Coast League season with the Sacramento Club. Title to his baseball services still rests with the

REOPENING THE BRUNSWICK-BOWLING ALLEYS

After being closed down for a few days in order to get the alleys tuned up and put in first-class shape, so that they will be second to none on the Coast, we are now open for business. These alleys were put in by the Brunswick-Balke Co., and are the best that's made, with all mineralite balls.

Pool and Billiards in connection. Give Us a Call. 711 Yates St.

coast club. Admiring Victoria fans have raised a \$75 fund with which to present Swain a diamond-studded medal to commemorate his home run activity of 1913. Add to this two \$50 notes for hitting the big Ball Durham signs at both Tacoma and Seattle, and numerous coupons, sacks of flour, cases of beer, etc., and it may be understood that it has been a fairly prosperous season for the big Victoria slugger.

Seattle—Seattle had a lead of two runs until the eighth when the locals fell down in their fielding and Tacoma began to hit McVoy, who had relieved Kelly in the fifth inning, the visitors winning the game 6 to 4. Girt pitched for Tacoma after the visitors took the lead, and Seattle was unable to score in the last two innings.

Score: R. H. E.
Seattle 4 11 3
Tacoma 6 12 0

Spokane—Spokane bunched hits off Callahan's delivery and defeated Portland by a score of 6 to 1. McCorry was in fine form except in the fourth.

Score: R. H. E.
Portland 1 7 2
Spokane 6 10 3

REAL ESTATE TEAM CAPTURE TWO GAMES

Good rolling was witnessed in last night's City Bowling League fixture. The Real Estate quintette taking two out of three from the "Hello" team. This evening the Puget Sound and Hinton Electric teams will play. The scores:

Real Estate.	1st	2nd	3rd
Huggitt	160	150	159
Holden	138	144	130
Smith	158	166	144
Swain	169	110	134
Bowman	172	132	168
Totals	797	702	735
Total pins, 2,234.			
Individual average, 149.			

Telephone.	1st	2nd	3rd
Gooding	165	138	142
Davis	147	122	130
Huron	156	170	194

Heather	140	146	126
Totals	778	698	797
Team total, 2,371.			
Individual average, 151.3-5.			

STEELE TO PITCH.

The Empire Red Sox have arranged a game with the "St. Francis," champions of the Senior City League, to take place at the Royal Athletic Park on September 28. Game called at 10 a.m. sharp. Bob Steele will be on the slab for the "St. Francis." Edwards will twirl for the Red Sox.

BROWN AND RUSSELL.

New Orleans, La., Sept. 25.—Frankie Russell, of New Orleans, and "Knock-out" Brown, of New York, were matched yesterday for a ten-round bout here October 14. It was announced that the winner of the bout would meet Joe Rivers here two weeks later.

GOES TO MAJORS

ED. KIPPERT

Heavy slugging outfielder of the Vancouver club, who has been drafted by the Cincinnati Reds. His batting was a big factor in the winning of the championship by the Beavers.

OAK BAY TEAM

BADLY BEATEN

Could Not Score on V. A. C., While Cup Holders Tallied Thirteen Goals

Vancouver, Sept. 25.—By a score of thirteen goals to nil, the V. A. C. Mann cup holders downed the Oak Bays, of Victoria, challengers for the coveted trophy, at Alhambra Park yesterday afternoon. The final game of the series was played on Saturday, but the chances of the victors making any better showing, let alone winning the cup, are very remote.

Twenty minutes, the first quarter, would comfortably cover all the lacrosse that the visitors played during the game. They held the champions to a one to nil score for one period, but then on the club boys just galloped with apparently the utmost ease.

The visitors outweighed the local aggregation considerably, but the speedy and tricky V. A. C. players more than made up for their lack of avoirdupois, and at times they made their opponents look like novices at the Canadian national pastime. Four goals were added by the champions in every one of the following three periods. Poor shooting spoiled many fine opportunities for the visitors to register a tally, and their home, in addition, showed a loathness to "take a chance."

Teams—	Position	V. A. C.
Victoria	Goal	J. Davis
Medridge	Point	Gallenders
E. McDonald	Cover	Mason
Redgrave	1st Defence	R. Painter
Martin	2nd Defence	Patterson
Knox	3rd Defence	B. Carter
J. Redgrave	Centre	C. Fierheller
Beasley	3rd Home	J. Painter
Taylor	2nd Home	Hill
Menzies	1st Home	Knight
Williams	Outside	A. Wright
Dempster	Inside	F. Julian
C. McDonald		

Referee, Fred Lynch; Judge of play, W. Peole; timekeepers, Dave Smith and R. Serazzi; penalty timekeeper, Clarkson.

Summary.
Goals, First Period—1 V. A. C., Wright, 9.11. Second period—2 V. A. C., Knight, 3.55; 3 V. A. C., Hill, 6.54; 4 V. A. C., Wright, 8.37; 5 V. A. C., Carter, 12 seconds. Third period—6 V. A. C., Julian, 7.07; 7 V. A. C., Fierheller, 6.02; 8 V. A. C., Julian, 3.54; 9 V. A. C., J. Painter, 2 minutes. Fourth period—10 V. A. C., Knight, 35 seconds; 11 V. A. C., J. Painter, 6.45; 12 V. A. C., J. Painter, 10.31; 13 V. A. C., J. Painter, 10.31; 13 V. A. C., J. Painter, 2.55.

Penalties:—First period—No penalties. Second period—Victoria, Martin, 5 minutes. Third period—Victoria, Dempster, 5 minutes; Vancouver, Patterson, 5 minutes. Fourth period—Victoria, McDonald, 5 minutes; Vancouver, Julian, 5 minutes and 10 minutes.

BURNS NOW AFTER 'FRISCO PROMOTER

Seattle, Sept. 25.—Another Tom steps in, or is rather hauled in the famous "Honest" Tom McCarey, of Los Angeles.

In red hot language, Tommy Burns, who was recently the victim of a frame-up of several fighting men, scores McCarey and brings to light several unpleasant suggestions as to the promoter's claim on the "Honest" part of his name. Burns says it is he who misled his prize, Peiky, and claims that the Californian, with Tim McGrath, influenced Peiky to turn against him.

In his letter to the promoter, Burns recalls several incidents which, if they are true, will not increase the love of the sporting world for McCarey. And Burns claims that he has proof to back up his statements.

Frank Chance has an entirely new team in the field now and he expects to be up in the running when the 1914 season opens.

SKATING BOOKED

FOR NEXT MONTH

Arena to Open on October 17; League Games Start in December

It is announced that the Arena will be thrown open for skating on Friday, October 17. This will be somewhat earlier than last year, but the success of the early opening has prompted the management to prepare for a busy season. The Vancouver rink will open on the same date, but the hockey schedule will not start until the first week in December. The Coast League magnates will meet the middle of next month to whip things into shape for the official opening which will likely be looked at Westminster. The season will be over by March 1, when the champion team will go east to play for the Canadian championship against the champions of the National Hockey Association.

Vancouver, Sept. 25.—Tom Wall, one of the owners of the Tecumseh Club of Toronto, arrived in the city yesterday and talked over the hockey situation with the local magnate. He predicts a great year for hockey.

Cyclone Taylor arrived home yesterday from a trip to Ottawa. He will again play rover for the Vancouver team this winter.

Montreal, Sept. 25.—Marchand, last year goaltender with the Toronto hockey team, signed on Saturday with the Canadiens of Montreal to play with them in 1913-1914.

FAVORITE HORSES ARE POPULAR WINNERS

Vancouver, Portland and Victoria Exhibitors Win Many Prizes Last Evening

The crown which attended the horse show last evening nearly doubled the attendance of the first night, and presented a quite animated scene. The programme also went more as arranged with respect to time, and although there were no less than five events in which the number of entries were so numerous that judging was somewhat difficult, the judges' deliberations were accurately timed, and did not interfere seriously with subsequent showings.

During the evening Mrs. McRae's Killarney came a bad cropper in the final jumping event, and for some moments it was thought that both the rider and his mount had suffered seriously. Fortunately, however, both were able to leave the ring unassisted, the former as he limped out being cheered by the onlookers.

A quite unlooked-for piece of excitement was provided by Mr. H. Ross's brown mare, Myrtle Mac, which, after experiencing a nasty collision with the wall, overturning the trap and dislodging of her driver, made lightning pace for the entrance gates. The tall pickets were overhung with spectators, who scattered wildly in all directions as the runaway mare leaped, buggy and all, over the five-foot barrier, and went till further orders and a more impenetrable obstacle was encountered.

The interest in the proceedings was well sustained, and hardly anyone left before the jumping. The polo ponies provided one of the most popular features of the evening, and although these were conspicuous by a singular lack of uniformity, some good exhibition work was given which won applause for both rider and pony.

Events Interesting.

The first event, the carriage horse section, brought out only one entry, this being the Victoria Transfer Co.'s novice pair, May and Captain, which carried off the blue ribbon. The turnout was unexpectedly smart, and captured favor as soon as it entered the ring. The Shetland ponies were all popular, and the judges, even, had some difficulty in deciding between Mr. Cox's entry, Connie, and Mrs. Drummond's diminutive "Ginger," the blue ribbon finally being allotted to the former, Ginger taking 2nd, and Mr. George Green's Daisy 3rd.

There were but three entries in the brougham class, all of which were exceptionally smart, and S. L. Howe's pair, Emyln Empress and Filgrave Surprise, obtained 1st; Mr. Laidlaw's chestnuts, Ambassador and Lady Mathias, 2nd; and Mr. Holland's bays, Harry Lauder and Tilly, 3rd.

A good string of trotters entered, and it was probably due to the somewhat crowded condition of the field at this juncture that the above-mentioned runaway occurred. Cameron & Caldwell's Prince was an easy winner of 1st; James McTavish, Vancouver, took 2nd with Canadian Girl; and F. H. Stephenson, Victoria, 3rd, with Bay Dan. The West End Grocery's exhibition, Winnie, a nice-looking brown mare, was among the runners for favor, and A. Wright's brown mare Lena was also popular.

Some unfortunate condition in the "trot" accounted for several near-falls in the saddle class, the gate-end of the field seeming to offer a most precarious and slippery footing on the turn. Bettina, a shapely four-year-old, exhibited by Col. and Mrs. McRae, Vancouver, had a fall, while several others barely escaped a similar fate on the same spot. J. D. Farrell, Portland, took a well-deserved first with Oregon, a handsome bay gelding with good paces and ring manners. E. Henderson, Victoria, took an easy second with Warwick Lily, who carried

a smart mount in Miss Robertson; and D. C. McGregor, Vancouver, won third with Warwick Hazel. Mrs. Thos. Hooper's Chanticleer, Mrs. Cox up, showed well in the canter, and an extraordinarily good mover was seen in Dixie Ross' long-legged Louis d'Or.

The high steps class brought forward some well-schooled animals, and the award of the blue to Mrs. McRae's chestnut, Perfect Dream, was approved by everyone, the lady herself winning applause by her masterly handling of the ribbons. Col. and Mrs. McRae were fortunate in winning the red ribbon also with Sir Hector, a brown gelding whose paces were only a little less perfect than the winners. Hillcrest Diamond, Mr. Andrew Laidlaw's chestnut, was magnificently driven, and carried favor with fanciers, winning only third, however, in the adjudgements.

Ladies' Hunters.
No less than twenty-three entered the ladies' hunters class, and although the selection of possible winners was not difficult, the final draw proved more difficult. Dr. Johnson's riding academy exhibit, "Pride of Erin," ridden by Miss McLean, of Vancouver, took 1st; while Miss Roberts' mount, Warwick Lily, exhibited by E. Henderson, Victoria, took 2nd; and the popular chestnut, Premier, exhibited by J. D. Farrell, Portland, 3rd.

There is little doubt that the smart appointments of Col. and Mrs. McRae's turnout in the Unicorn class accounted well in their favor, as in this respect it would have done credit to any place, while the animals themselves were well-matched and beautifully driven. They were Perfect Dream, Sunrise and Sir Hector, which took 1st; while the 2nd and 3rd prizes were taken respectively by S. L. Howe's Emyln Empress, Mountain Belle and Filgrave Surprise; and W. S. Holland's handsomely turned out unicorn, Harry Lauder, Isabella and Tilly.

Polo Ponies Popular.
The appearance of the polo ponies was greeted with cheers, and the various tests were watched with keen interest. After the preliminary canter round the ring, four stakes were ranged down the field, and the several riders were put through the trial of circling these on alternate sides as rapidly as possible, turning and repeating the process back to the starting point. Some managed the feat most dexterously, sailing through in incredibly quick time without so much as flicking the stakes. Others were more awkward, whether due to rider or pony, and the best were soon ranged up for final examination by this process of elimination. The last competition consisted of mallet-play and exhibition of the balance and manageability of ponies, and G. W. Gore-Langton, of Koksilah, won 1st with his hardy-looking pony, Clarette; Indian Maid and Black Beauty, the respective exhibits of T. McVoy, of Victoria, and A. Mackenzie, also of Victoria, took 2nd and 3rd amid approving cheers, both ponies having acquired themselves with remarkable intelligence and sure-footedness. The latter made a splendid recovery after practically going down in the stake competition, and flitted past the next post without touching.

Rosalind, shown by Andrew Laidlaw, and ridden and driven by Mrs. Gordon, provided the only, and a singularly pleasing, entry in the combination class, the chestnut responding readily to every touch on the rein by the skilled horsewoman who exhibited the handsome mare.

The runabout class was competed by J. D. Farrell, of Portland, who took 1st with My Surprise; Andrew Laidlaw, who took 2nd with Hillcrest Dandy; and Col. and Mrs. McRae, whose Sunrise won the 3rd prize.

The jumping was considerably better than the previous evening, although several of the mounts seemed to find the second hurdle the more difficult, as was noted on the first night. Mrs. Cox, on D. Spencer's Flash, romped

"NO MAN IS STRONGER THAN HIS STOMACH"

Some one said: People who care or attention. There is nothing to do but adjust it about you in good health. They are continuous and turn on the current. It cures all you sleep.

This method of electric treatment has cured thousands of cases of stomach trouble, and many other chronic complaints after doctors and drugs have failed. We have the evidence to prove it.

So, Vancouver, Dear Sirs—I was troubled with my stomach, kidneys, rheumatism under right shoulder and I can say that I am greatly benefited by Electro-Vigor. It is the only relief from drugs and brings the system pure and clean of all poison. Thanking you for your kindness.
H. R. TOLLY.

\$1.00 Book Free

CUT OUT THIS COUPON and bring or mail it to us. It will give you a beautiful 100-page book which tells all about this treatment.

Our book is illustrated with pictures of fully developed men and women, showing how Electro-Vigor is applied, and explains many things you should know regarding the cure of disease. We'll send the book, closely sealed and prepaid, free, if you'll mail this coupon.

Call if you can and examine Electro-Vigor free. Consultation free. Office hours 9 a. m. to 6 p. m. Wednesday and Saturdays till 9 p. m. Sunday 10 a. m. to 1 p. m.

Name Address

over the hurdles in fine style, while T. McEvoy's Indian Maid, which cleared so well on Tuesday evening, won 2nd for a very good performance. Col. and Mrs. McRae's Kildare, a four-year-old gelding which promises to do better things in the future, carried off 3rd.

This Evening's Programme.
Rowland's orchestra provided a first-rate programme of music during the evening. To-night's horse show will include the very popular city delivery class, which is sure to prove a draw, while the other classes on the list should make for a full building.

"I have a big fat, healthy girl."

"I have a big fat, healthy boy."

SCRAP BOOK.

Oil King Celebrates "Job Day," His Own Holiday.

John Davison Rockefeller has a private, personal holiday all his own. He calls it "Job Day," and it commemorates his entrance into the business world on September 23, 1855, just fifty-eight years ago to-day.

The world's richest man did not find it easy to land his first job. The "want ad," as a short-cut between the jobless and a job, had not then been invented. The future oil king tramped the streets of Cleveland for days and weeks, wearing out much shoe leather, in search of work. He interviewed hundreds of merchants and business men in all lines of trade. He announced his willingness to do any sort of work, at almost any wage. Boys seemed to be a glut on the market in Cleveland at that time, but patience and persistence finally won out, and little Johnnie "connected" at last with the elusive job he long had sought.

Young Rockefeller was sixteen, "going on" seventeen, when he made his premiere in the world of commerce. In the humble capacity of office boy in the commission house of Hewitt & Tuttle, in a little while he became a clerk, then a cashier and bookkeeper. At nineteen he entered business for himself as the junior partner in the commission firm of Clark & Rockefeller. The young merchant saw great possibilities in oil, and in 1862 he and his partner became associated with Samuel Andrews, an expert oil refiner, under the firm name of Andrews, Clark & Company. Although the name of Rockefeller did not appear on the sign, he soon made himself the "boss" of the business. John interested his brother William in the industry, and a new company was formed. In 1865 the company built at Cleveland a large refinery, which was named the Standard Oil Refinery. This was the nucleus of the Standard Oil Company, which was organized in 1870. In this corporation John D. Rockefeller soon became the controlling power, and, by methods which have been explained by Ida Tarbell and other investigators, he built up what was practically a monopoly of the American oil business.

"Save the pennies" is the often-quoted Rockefeller recipe for success. Although he entered the business world at sixteen, he had made and saved money much earlier than that. When still living on a farm, at the age of twelve, he was engaged in a "potato war" on a wage of about forty cents a day. What he did with his earnings Mr. Rockefeller has himself explained:

"When I was ten years old I had succeeded in earning some money. It was \$50. I loaned it to a neighbor at seven per cent interest. In a year the money earned me \$25. From that time onward I determined to make money work for me."

He also made other people's money work for him. He was a borrower as well as a lender. He got his start in the petroleum refining business on borrowed money. At twenty dollars he had a thousand dollars of his own, but he had several thousands of other people's dollars at his command.

Although he has a special holiday for himself, Mr. Rockefeller doesn't believe in holidays for others. Employees on his estate were refused a holiday last Labor Day. "Instead of spending money on worthless amusements, my employees were given an opportunity to add to their savings," explained the world's richest man. "Had they been given a holiday their money would have been spent foolishly." Mr. Rockefeller spent the day motoring about the country and playing golf.

DAIRY EXHIBIT GOOD

Quality Commended by the Judges; Progress Being Made in Home Production.

While not a big department of the exhibition the competitions for dairy products are a most useful feature and the results announced to-day are most interesting. The exhibits are displayed in the main building. The entries are not numerous, but the judges state that they were for the most part of a very good quality.

Raper Brothers were the chief winners and the fact that the exhibits were kept in the refrigerator for 48 hours before being judged shows that the test was a really good one of the keeping qualities of the milk and cream. A. H. Menzies & Son, of Pender Island, also made a very creditable showing with their cream and milk. The butter display was not so meritorious, although two of the displays were held to be very fair.

Honey producing is an industry which has not been largely developed in this province yet, but a most interesting exhibit showed the industry is capable of profitable practice. The results follow:

Dairy Produce.
Creamery butter, not less than 60 lbs., in tub or box—L. M. C. Campbell; 2, Salt Spring Island Creamery; 3, Comox Creamery; 4, P. Pallesen.
Creamery butter, not less than 50 lbs., in prints—L. M. C. Campbell; 2, P. Pallesen; 3, Comox Creamery.
Dairy butter, not less than 10 lbs., in crock or tub—L. M. C. Campbell.
Best display creamery butter, size, quality and arrangement considered—1, Salt Spring Island Creamery.
Best display of dairy butter, size, quality and arrangement considered—3, Students' Halliburton College.
Honey and Apiary.
Best 20 lbs. of comb honey in sections, in most marketable condition for retailing and display—1, W. R. Armstrong.
Best 20 lbs. of liquid extracted honey in most attractive package for retailing—1, Sam Morley; 2, W. R. Armstrong.
Best 12 lbs. of comb honey in sections, cased and glazed for retailing and display—1, W. R. Armstrong; 2, Sam Morley.

HOW I MADE MY HAIR GROW

Woman With Marvelously Beautiful Hair Gives Simple Home Prescription Which She Used With Most Remarkable Results.

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally failed. Many of them made my hair greasy so it was impossible to comb it or do it up properly. I think that many of the things that I tried were positively injurious, and from my own experience I cannot too strongly caution you against using preparations containing wood-alcohol and other poisonous substances. "I believe they injure the roots of the hair, and from my own experience I finally found a simple prescription which I can unhesitatingly state is beyond doubt the most wonderful thing for the hair I have ever seen. Many of my friends have also used it, and obtained wonderful effects. It not only is a powerful stimulant to the growth of the hair and for restoring gray hair to its natural color, but it is equally good for removing dandruff, giving the hair life and brilliancy, etc., and for the purpose of keeping the scalp in first-class condition. It also makes the hair easier to comb and arrange. I have used it two months and during that time it has not only stopped the falling of my hair and wonderfully increased its growth, but it practically restored all of my hair to its natural color. You can see the ingredients for making this wonderful preparation from almost any druggist. The prescription is as follows:

Bay Rum, 4 oz.; Menthol Crystals, 1 drachm; Lavender Compound, 2 oz. If you like it perfumed add a few drops of To-Kalon Perfume, which mixes perfectly with the other ingredients. This, however, is not necessary.

Apply at night and morning; rub thoroughly into the scalp.

FIRST THINGS

The first American newspaper, "Public Occurrences, Both Foreign and Domestic," was issued in Boston 223 years ago to-day, Sept. 25, 1690. It was published by Benjamin Harris at the London Coffee-house, in Boston, and was printed for him by Richard Pierce. The first and only number consisted of four pages, each about seven by ten inches, but one page was left blank. The pioneer editor's remarks on political and military matters aroused the ire of the authorities, and the paper was suppressed within twenty-four hours of its publication. Only a few copies were circulated, and only one copy is now known to be in existence. Harris had proposed to issue the paper monthly, "or if any Glut of Occurrences happen oftener," and to give "an account of such considerable things as have arrived unto our Notice." He promised that "The Publisher will take what pains he can to obtain a Faithful Relation of all such things; and will particularly make himself beholden to such Persons in Boston whom he knows to have been for their own use the diligent Observers of such matters." He proposed that "Memorable Occurrences of Divine Providence may not be neglected or forgotten," and indulged in a pious hope, "that some thing may be done towards the curing, or at least the Charming of that Spirit of Lying, which prevails among us, wherefore nothing shall be entered, but what we have reason to believe is true, repairing to the best fountains for our information."

So little soap is used the first three or four years of baby's life that there is no excuse for not using the best. Woodbury's Facial Soap is the work of an authority on the skin and its needs. Daily baths with its soothing lather keep baby's skin in perfect condition—alleviating itching, burning and smarting—leave the skin beautifully soft and smooth. Get a cake and try it today.

Woodbury's Facial Soap costs 25c a cake. No one hesitates at the price after their first cake.

THE VANCOUVER FLAG POLE

Above illustration shows the last stage in the work of erecting the flag pole at Vancouver, which is said to be the tallest single-piece pole in the Empire. The view shows how the pole was worked into the base prepared for the flagstaff. The inset at the top shows the size of the ball and weather vane in contrast with the two men standing alongside.

SPLENDID WORK IN DOMESTIC SCIENCE

Value of Training Shown in High Quality of Exhibits at the Fair; School Girl Cooks

Further judging in the domestic science work in the Woman's Building at the exhibition was completed yesterday, the cooking and preserved fruits being included in the new list of prize winners. As in the sewing work was all of exceedingly high calibre, the judge expressing herself as be-

ing most gratified with the good showing made.

There is a great deal of school work in this list. Most of the exhibits in these classes, however, are in the Made-in-Victoria Building. There a crowd surrounded the booth where the school-girls are giving a practical example of their ability as cooks. The results follow:

Domestic Science—Non-Professional.
Bread, plain, white, one loaf—1, Mrs. P. Porter; 2, Mrs. A. F. Wood.

Bread, plain, brown, one loaf—1, Mrs. H. T. Knott; 2, Miss Inglis.

Bread, collection, sweet, not less than three kinds—1, Mrs. Wm. Pye; 2, Mrs. A. J. McKenzie.

Balls, dinner, 6—1, Mrs. W. J. Edie; 2, Mrs. A. J. McKenzie.

Biscuits, plain, 6—1, Mrs. Glendenning; 2, Mrs. Black.

Cake, pound—1, Mrs. W. Belanger; 2, Mrs. Service.

Cake, layer—1, Agnes Burridge; 2, Mrs. H. T. Knott.

Cake, sponge loaf—1, Mrs. Service; 2, Mrs. E. O. Weston.

Cake, fruit—1, Mrs. M. Belanger; 2, Mrs. G. M. Turner.

Cake, chocolate loaf—1, Mrs. E. O. Weston; 2, Mrs. M. McKenzie.

Cake, seed—1, Mrs. A. J. McKenzie; 2, Mrs. Jas. Turner.

Cake, angel—1, Mrs. H. T. Knott; 2, Mrs. Glendenning.

Plum pudding—1, Mrs. Glendenning; 2, Mrs. E. O. Weston.

Pastry shells for tarts, 12—1, Mrs. B. Lewis; 2, Isabella Staples.

Mince meat, shown in glass jars—1, Mrs. J. A. Turner; 2, Mrs. A. J. McKenzie.

Assortment of pickles, not less than three kinds—1, Mrs. Rudd; 2, Mrs. J. A. Grant.

Assortment of sweet pickles, not less than three kinds—1, Central School Division; 2, Mrs. A. J. McKenzie.

Assortment of jams, not less than three kinds—1, Mrs. Service; 2, Mrs. A. J. McKenzie.

Assortment of fruit jellies, not less than three kinds—1, Central School Division; 2, South Park School.

Assortment of bottled fruit, not less than three kinds—1, Mrs. F. G. Quick; 2, Mrs. E. O. Weston.

Assortment of bottled fish, not less than three kinds—1, Francis Boorman; 2, Mrs. A. J. McKenzie.

Assortment of bottled vegetables, not less than three kinds—1, Mrs. J. A. Grant; 2, Francis Boorman.

Assortment of marmalades, not less than three kinds—1, Mrs. A. J. McKenzie; 2, Mrs. F. W. Grant.

Marmalade, orange—1, Mrs. F. W. Grant; 2, A. J. McKenzie.

Assortment of candy, not less than three kinds—1, Miss Harris; 2, L. F. Mercer.

Candy, chocolate, 1 lb., assorted—1, Miss Harris; 2, Miss W. Small.

Display by one person of articles not entered in any other class and not less than 10 different articles—1, Mrs. Jas. Turner; 2, Francis Boorman.

For Girls 16 Years and Under.

Bread, plain, flour, water, salt and yeast only—1, M. Plows; 2, Jean Sargent.

Bread, plain, using sugar, shortening

or potato water to above ingredients—1, Miss L. Hargre; 2, Miss Eloise Turnbull.

Bread, brown—1, Jessie Motheral; 2, Marjorie McLean.

Muffins, 6—1, C. Toimie; 2, Agnes Burridge.

Biscuits, plain, 6—1, Lora Albhouse; 2, Jean Sargent.

Doughnuts, 6—Miss Bigham; 2, Miss B. Jacklin.

Scones, 6—1, Ruth Grimshaw; 2, Miss B. Jacklin.

Eggless cake—Miss E. H. Sargent.

Plain cake, iced—1, Florence Wood; 2, Bessie Harpess.

Layer cake—1, Ella McKenzie; 2, Jessie Motheral.

Jam tarts, flaky crust—1, Miss B. Jacklin.

Apple pie, short crust—1, Alice Ewing; 2, Miss B. Jacklin.

Fruit jellies, not less than three kinds—1, Miss B. Jacklin; 2, B. H. Sargent.

Candy, creams, assorted, 1 lb.—1, Gladys Steinmetz; 2, W. Henderson.

Candy, mixed, 1 lb.—1, Edith Eilers; 2, Bessie Shampney.

Junior Grade—Cookery.

Bread—1, Florence Billard.

Jellies—1, Central School Division 1; 2, South Park School.

Jickies—1, South Park School; 2, Central School Division 1.

Needlework, Junior Grade—Public Schools.

Best child's waist—1, Evelyn McLennan; 2, Rita Crimston.

Best trimmed pinafore—1, Martha McCorkill; 2, Margery Ensore.

Best hemmed handkerchief—1, Jessie Cook; 2, Clare Wachter.

Intermediate Lower.

Best needlework or afternoon apron—1, Mavis Gosnell; 2, Gladys Bowl.

Best romper dress—1, Rebecca Griffith; 2, Margaret Dermott.

Best trimmed apron—1, Maple Winterburn; 2, Mona Jewel.

Intermediate (Upper) and Lower Senior.

Best Princess skirt—1, Gwendoline Pontifex; 2, Nora Jackson.

Best kimono nightdress—1, Myra Renwick; 2, Winnifred McGibbon.

Corset cover—1, Bessie Mitchell; 2, Constance Heyland.

Best 6 buttonholes—1, Elsie Oddy; 2, Veda Butt.

Best darned socks or stockings—1, Mabel Young; 2, Verna Revis.

Best book of specimen pieces, not less than 12—1, Marian Simpson; 2, Estelle Jones.

Best child's dress—1, Lily Widdison; 2, Hattie Casey.

ROYAL BETROTHALS.

Bucharest, Sept. 25.—The betrothal of Prince Charles of Roumania to Grand Duchess Olga of Russia, and Crown Prince George of Greece, to Princess Elizabeth of Roumania will be announced at an early date.

South America covers 1,900,000 square miles, and is rich enough to have 500,000,000 inhabitants.

—First Floor

Bathrobes and Pyjamas as for the Little Ones

A new shipment just to hand of these warm, dainty Bath Robes and Pyjamas for the little ones. They are the famous "Good-Night" brand, and are made of good quality flannel that will wash and wear well, at moderate prices:

Bath Robes in colors pale blue, pink and white with colored spots, in all sizes from 3 up to 10 years. Per suit, \$2.00 and \$1.75

—First Floor

PRESS ASSOCIATION

J. M. Imrie, Secretary of the Canadian Press Association, Here for Purpose of Promoting One.

For the purpose of promoting a branch of the Canadian Press Association in British Columbia, John M. Imrie, secretary of the Canadian Association, arrived in the city yesterday. He is on a trip to discuss with the local members the advisability of organizing a Western British Columbia division. Speaking on this subject, he said:

"Canadian Press interests were until this year served by several separate organizations, the Canadian Press Association, the Western Canada Press Association, the Maritime Provinces Press Association and the Alberta and Eastern British Columbia Press Association. Early this year it was decided to amalgamate the various organizations into the Canadian Press Association, and to form divisions to serve the territory formerly served by

the separate associations. Thus the Maritime Provinces Association becomes the Maritime Provinces division, the Western Canada Association becomes the Manitoba and Saskatchewan division, the Alberta and Eastern British Columbia division becomes that division of the central organization."

Western British Columbia has not at present any organization of this nature, and it is for the purpose of trying to form a division here that Mr. Imrie has made this trip. The Canadian Press Association now numbers over 800 members, made up of practically every daily paper in Canada and, sixty per cent. of the weeklies.

WOULD BE SMALL COST

Pipe Line Could Easily Be Extended Into Deep Water at Elk Lake.

The determination of the officials to allow the Elk Lake water works to remain dormant during the coming winter, or at any rate not to make any provision for it until the winter rains have

fallen the lake up, gives an opportunity, it is pointed out by those in touch with the matter, for a case to be set before the public at the next civic election in the form of a by-law to make the necessary extensions, in order to bring the plant into service.

The city of Victoria has a very large investment extending over nearly forty years in this plant, and it would cost little more than \$20,000 to carry the pipe line from Beaver lake up into Elk lake, and thus instead of draining from an acreage of some 50 acres of swamp in the former lake, the water supply of a lake 30 feet deep, and covering some 385 acres, would be available.

The plant could be put into commission with the extended pipe line for a sum equivalent to about three months' cost of the purchase of water from Esquimalt Waterworks Company, and assuming the capacity of the lake at the figure estimated by Mr. Adams, the hydraulic expert, some years ago, at 2,400,000 gallons daily, rather than over four millions per day, which was believed to be the case when the plant was actually used when the plant was allowed to become dormant, the amount

New Frillings Attractively Priced

Just to hand an express shipment of dainty new Frillings in ecru, cream and white spider web, Vandyke and various other pretty designs. Attractively priced at from, per yard, 75c to 35c

MINOR TRAGEDY.

The second-hand bookshop is not without its minor tragedies. A writer in the Academy of March 7, 1908, the Daily Chronicle recalls, tells the following story:—

"I remember some years ago entering a second-hand bookshop not far from one of the great London railway stations, when my attention was arrested by the sight of a small, shabbily-dressed man who was at that moment leaving the shop. He reminded me strangely of Watts's portrait of John Stuart Mill, and there was a certain look in his eyes that haunted me for days. The bookseller turned to me. 'An old customer of mine, sir,' he remarked. 'He's taken to selling his books lately, though I don't know why!'"

FIT TO COMPETE WITH ANY HORSES

Judge Pays High Compliment
to Animals Shown at the
Exhibition

ISLAND OWNERS WIN WITH THOROUGHBREDS

Provincial Breeders Do Well in
the Clydesdale Classes and
Outsiders in Light Horses

Outsiders won most of the awards in the light horses, judging of which was completed only yesterday afternoon at the Exhibition. In standard-bred alone did Vancouver Island make a good showing and in this class H. Fullerton, Walter Millington and J. Wolfenden divided the honors. The thoroughbreds, consisting mostly of the horses entered in the race meet, were of good quality. The standards also were fair, but the best class was the hackneys. The competition was much stronger in this class, especially in the brood mares, where the judge, John A. Turner, of Calgary, declared that he had the greatest difficulty in reaching a decision.

Mr. Turner was emphatic in stating that the stock shown in the classes he judged was fit to be shown at any exhibition he had ever attended and would always be competing for the highest honors against the very best of opposition. The judging of such an excellent show was a pleasure, he said. This province came out very strong in the Clydesdales. Mr. Savage, of Westham Island, winning out for the highest honors after close competition with J. McMillan, of Lulu Island. These two and Captain Watson, of Duncan, won the majority of the prizes. Captain Watson won the male championship and the Canadian bred female championship as well as the B. C. prize for the best exhibit of horses bred in British Columbia. The horsemen who witnessed the judging commented on the way in which the home-bred animals came out. The competition with the very best outside stuff that has been all over the circuit. One prominent expert from east of the Rockies stated that British Columbia had taken a prominent place in the production of Clydesdales of quality as this exhibition had shown. The province was most suitable for getting the best of results in this class.

In the Shires the competition was not so keen, although an excellent class of stock was exhibited. Alex. Davie, of Ladner, with his big string of fine useful animals made the best showing.

The results of all the horse-judging follow:

Standard Bred.
Stallion, three years or over—J. Kerr Wilson; 2, H. M. Fullerton; 3, T. H. Cocker.
Three-year-old filly—H. M. Fullerton; 2, Wm. Symons.
Yield mare—D. J. Ross; 2, Jno. Jennings; 3, H. M. Fullerton.
Yearling filly—J. A. Wolfenden; 2, C. M. McDonald.
Two animals, the get of one registered sire, all under 7 years—J. Wolfenden.
Champion stallion or mare—J. J. Wolfenden.

Coach Horses.
Brood mare with foal by side—A. Davie.
Foal—A. Davie.
Champion stallion or mare—A. Davie.

Hackneys.
Stallion, three years or over—Mr. Laidlaw.
Brood mare with foal by side—D. C. McGregor.
Yield mare—Mr. Laidlaw; 2 and 3, D. C. McGregor.
Three-year-old filly—D. C. McGregor.

Two-year-old filly—Mr. McMillan.
Foal filly—D. C. McGregor.
Two animals, the get of one registered sire, all under seven years—Mr. Cox; 2, Mr. McMillan.
Stallions—1, Mr. Cox.
Mares—1, 2 and 3, Mr. Cox.

OUR LETTER BOX

Letters for publication in Daily Times must be received at the Times office not later than the day before the day of publication. Letters received later will be held over until the following day.

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

WATER QUESTION.

To the Editor:—I closed my letter of Saturday with a tabulated statement showing the cost per thousand gallons of water from the various sources now in the public eye. follows:

Cost Per 1,000 Gallons.
Sooke, 16,000,000 gallons per day 2.67c.
Sooke, 13,000,000 gallons per day 3.2c.
Esquimalt, purchase 3.19c.
Sooke, 6,000,000 gallons per day 5.24c.
Esquimalt, 6,000,000 gallons per day 5.24c.
Sooke, 5,000,000 gallons per day 5.3c.
Esquimalt, 5,000,000 gallons per day 5.3c.
5,000,000 gallons purchased by 1,000 gallons 11c.

Now this is the cost and only the cost, but you suggest that the revenue side should also be considered. As a result of your editorial comment I applied for and the Esquimalt Water Company was good enough to furnish me with a statement of the returns of that company for the year ending June 30, 1913. It is as follows:

Gross receipts from general water rates, water for power sold the Tramway Company and rents of lands for pasture, etc. \$69,595.23
General maintenance and operating costs 17,370.55

Fixed charges \$52,134.68
Net profit for shareholders \$1,090.00

I have also applied to the city comptroller, and he has given me the figure of \$262,021.87 as the gross revenue of the water department of the city for the year ending 31st August, 1914.

I have not been furnished with the exact consumption of water for each side of the Arm, and it is difficult to assume any figure for the Esquimalt Company, as the power end of their business must take a large quantity. I assume Victoria's as above at five million gallons and Esquimalt's at the same proportion of gross revenue—or about one-fourth or one and a quarter million gallons. In other words, it is taking six and a quarter million gallons daily to supply Greater Victoria, at a cost to the consumer of \$331,527.10, or at the rate of approximately 14.87c. per thousand gallons, out of which all maintenance and operating charges must be met. If this is in any way an accurate assumption, it means that Victoria cannot afford to purchase water by the thousand gallons at a cost of 11c. per thousand.

Applying the figures another way: If the Esquimalt holdings were purchased, and Victoria Water and Esqui-

RHEUMATISM KEPT HIM IN BED

Suffered Tortures Until
"Fruit-a-tives" Cured Him

McMillan's Corner, Ont.,
Sept. 26th, 1913.

"Your remedy 'Fruit-a-tives' is a perfect panacea for Rheumatism. For years I suffered distressing pain from Sciatic and Sciatic Rheumatism, being laid up several times a year for days at a time. I went to different doctors, who told me there was no use doing anything—it would pass away. They gave me mustard plasters and other remedies that did no good. Plasters took no effect on me—except to blister me and make raw spots. I took many advertised remedies without benefit, but fortunately, about two years ago, I got 'Fruit-a-tives' and they cured me.

"Since then, I take 'Fruit-a-tives' occasionally and keep free of pain. I am satisfied 'Fruit-a-tives' cured me of Rheumatism, and they will cure anyone who takes them as directed. If this letter would be of value to you, publish it.—JOHN B. McDONALD."

Indeed, this letter is of value to us and to the thousands of sufferers from Rheumatism, Sciatica, Lumbago and Neuralgia. It points the way to a certain cure. 50c a box, 6 for \$2.50; trial size, 25c. At dealers or from Fruit-a-tives, Limited, Ottawa.

mal district were to be self-supporting, then the figures would be:

Net profit except fixed charges \$52,134.68
Fixed charges, interest and sinking fund on purchase price of 2,000,000 103,100.00

Deficit \$50,965.32

How soon that would be wiped out and turned into a profit will depend on the point of view one takes of the rapidly with which Victoria Water and Esquimalt will grow, and there is a fine play for the imagination, but it is interesting to note that two and a half millions, or at most, three millions per day would do it at the present rates, and that is generally assumed to mean twenty-five thousand to thirty thousand inhabitants. You will get many answers to the problem of when that district will have these people as you will meet men on the street.

On the other hand, Victoria city, Oak Bay and South Saanich will get the overflow and should be charged with the expense, as they are now, on the purchase from month to month from the company.

It takes six and a quarter millions now to supply both sides of the Arm. When will it be necessary to augment the supply of thirteen millions from Goldstream. Just as soon as Greater Victoria doubles her population again, or if the experience of 1910-1911 is any criterion, in just about three more years. I entirely agree with you, Elliott when he says that sixteen million gallons per day is not sufficient provision for the future, but we have always Goldstream to fall back on, and so long as Victoria holds her right of compulsory forcing the company out of existence on the very reasonable terms of the statute now in force, we can provide for a population in Greater Victoria of two hundred and ninety thousand people, from Sooke sixteen millions and Goldstream thirteen millions, and we are carrying Goldstream at 6 per cent. simple interest per annum under the statute and having no necessity of providing a sinking fund and getting the benefit on the purchase price of all the net profits they make.

My argument is in favor of the passing of the present by-law now. What might have been done and whose fault it is that it was done, or anything else in the past, I leave aside for the deliberation of those interested in raising or consuming some person. I am not interested in persons. The reasoning of my argument may be shortly put thus:

First—There is approximately \$75,000 per annum for fifty years wasted if it is not done. True, a good deal of it will be available at any time, but not all. For instance, the E. & N. land purchase necessary for the sake of purity has not been consummated by payment, and cannot be unless the by-law passes, and who can tell from whom or at what price it might have to be purchased three years from now? Then again the plant, equipment, machinery and organization now to be disbanded and there will undoubtedly be a rather heavy loss there.

Second—The cost of finishing Sooke is now less than the cost of purchasing Esquimalt; \$1,500,000 as against \$2,000,000, and the London market at present would rather not see that \$500,000.

Third—Goldstream can be purchased at any time at the same terms. The basis is not value but cost, and the company is not going to make any foolish cost investment just to run up the price. Look at their very low fixed charges.

Fourth—I do not view Sooke and Goldstream as alternative sources. I am too firm a believer in Greater Victoria's growth and prosperity to believe that thirteen millions or sixteen millions will last 17 years or a length of time. I regard them as complementary schemes, both of which we must have, and that shortly, and it is only a question of which first.

I must add that the Esquimalt Water Works Company in their letter to me state "that we only give the information as a matter of courtesy in accordance with the suggestion in Times. We are particularly anxious to take no part in the Sooke Lake discussion," and if I might be permitted, I wish also to add an expression of my appreciation of their courtesy.

F. A. McDIARMID.
Victoria, B. C., September 23, 1913.

TO-DAY IN CANADIAN HISTORY

George Washington's appeal to French-Canadians to take up arms in "the cause of freedom" and to give assistance to the revolutionary army then beginning the invasion of Canada, was issued on this date in 1775. In his address "the father of his country" used language inspired by expediency and passion, quite unlike the dignified democracy that usually characterized his public utterances. He referred to the "poverty of soul and baseness of spirit" of the loyalists, and begged French-Canadians to assist "the free and brave Americans" in opposing the "cruel and perfidious schemes which would deluge our frontiers with the blood of women and children. He referred to England, the land of his origin, as the abode of "slavery, corruption, and arbitrary despotism." Washington's appeal had little more effect than those which had been issued by congress. The clergy and seigniors of Canada, satisfied with the Quebec Act, were disposed to stand by the British government, and their influence prevented any uprising of the populace. The Continental Congress had previously issued a bitter denunciation of the Catholic church, and this attack on their faith permanently alienated the great majority of French-Canadians.

September 25 is the birthday of the Hon. Robert Emmerson, statesman and lawyer, at Margerville, Sunbury county, N. B., 1853; and of Fannie Fern (Phillips) Andrews, lecturer, social worker and peace advocate at Margerville, N. S., 1887. Sir William Johnston Ritchie, Chief Justice of Canada and acting governor of the Dominion during the absence of Lord Lorne in 1881 and 1882, died on this date in 1892. October 28 next will mark the centenary of his birth at Annapolis, N. S.

In the spring of 1775 the "Green Mountain Boys" surprised and seized the forts of Ticonderoga and Crown Point for the Continental Congress. Later it seems to have occurred to their valiant leader, Ethan Allen, that the capture of Montreal would be an exploit worthy of his steel. At any rate, when sent by General Montgomery to the Richelieu to sound the temper of the inhabitants towards the invaders, he crossed the St. Lawrence to Long Point, a league above Montreal, with 150 men, expecting to be joined by the disaffected in sufficient numbers to enable him to capture the town. Instead Carleton sent troops to dislodge him from the buildings he had occupied, a task accomplished in half an hour, and "on this day," in 1775, Allen and thirty-five others were captured. But in 1776 some of the insurgents were sent to England and imprisoned in Pendennis Castle on the Cornish coast. Montgomery wrote

upbraiding Carleton for his treatment of Allen. The governor would not answer "a rebel" but to his own government explained that his seeming harshness was due to there being neither "prisons to hold nor troops to guard" the captives, whom it would have been most imprudent to let go.

BIRTHDAY CONGRATULATIONS

Cameron, Bruce (Calgary); born, Chatham, Ont., 1871; journalist for many years; now clerk to city commissioner.

Emmerson, Hon. Henry Robert, K. C., M. A., LL. D., P. C., M. P. (Dorchester, N. B.); born, Margerville, N. B., 1853; barrister since 1878; Liberal M. P. for Westmorland, 1888-1900; chief commissioner of works 1892; attorney-general and premier of New Brunswick, 1897-1900; Liberal M. P. for Westmorland since 1900; minister of railways and canals, 1906-1907.

Grant, Lieut.-Col. James Alexander (Toronto); born, Ottawa, 1855; principal medical officer of second military division.

Herbert, William B. (Winnipeg); born, Ryde, Isle of Wight, England, 1874; manufacturer in Vancouver, 1897-1900; now estate and financial broker.

Milne, Charles (Vancouver); born, Aberdeenshire, Scotland, 1856; produce dealer; soldier and crack-rifle shot.

Perron, Joseph Leonide, LL. B., K. C., M. P. P. (Montreal); born, St. Marc, Que., 1873; one of the leaders of the Montreal bar; now M. P. P. for Gaspe, 1910-1912; now M. P. P. for Vercheres.

Taylor, John Allan (Victoria, B. C.); born, Halifax, 1877; manager of Royal Bank at Moose Jaw, 1906-1911, and since then at Victoria.

THE HUMAN PROCESSION

Samuel Selwyn Chamberlain, one of a number of men who have had the title of "Father of yellow journalism" wished on them, was born in Walworth, N. Y., sixty-two years ago today. Mr. Chamberlain is formally known as "S. S." and informally as "Sam," to the newspaper men of two generations and two continents. During his forty years in journalism he has held important positions on newspapers from Paris and London to San Francisco. For nearly a quarter of a century he has been connected with the newspapers of William Randolph Hearst, and his latest assignment was as editor of Mr. Hearst's London paper, the Sunday Budget. In that capacity he has made it for the English readers of the Budget just one thrill after another.

It was forty years ago that "Sam" entered the ranks of the Fourth Estate by way of an editorial desk in the office of the N. Y. J. Advertiser. From the Jersey metropolis he went to New York, at the call of James Gordon Bennett, who made "Sam" his private and public secretary. Later he became managing editor of the New York Herald. At a year or two on the staff of the World, in the pre-Pulitzer days, he returned to the Bennett forces as one of the editors of the Evening Telegram. In the meantime Mr. Chamberlain had picked up a little French, and he determined to try it on the Frenchmen. He went over to Paris in 1884 and founded Le Matin, which became one of the great journals of Paris. When Paris pulled on him he sold out and returned to the States, becoming editor of the San Francisco Examiner. Then he developed what has come to be known as the Hearst style of journalism. He took part in the Hearst invasion of the East, and was made the editor-in-chief of the New York American, and supervising editor of all the Hearst newspapers. When Mr. Hearst entered the magazine field by purchasing the Cosmopolitan, Mr. Chamberlain was made its editor. In 1899 he returned to the San Francisco Examiner, and later was sent to London to launch the Budget.

Among the many Canadians who have left their native land to find fortune and fame in Uncle Sam's country, not the least notable is George G. Booth, who, with his two brothers, Ralph H. and Edmund W., controls seven of the leading newspapers of Michigan. Mr. Booth was born in Toronto forty-nine years ago. After several years in the manufacturing business, he entered on his journalistic career a quarter of a century ago as manager of the Detroit Evening News. A short time before that he had married Ellen Warren Scripps, daughter of the famous Detroit newspaper publisher. In 1895 he established the Grand Rapids Evening Press. He still

WANTED—At once, two chambermaids. Enquire Housekeeper, Westholme Hotel.

CHINAMAN IS SHOT; ASLEEP IN BUNK

Three Bullets Take Effect; Evidence That Attack Was Deliberately Planned

What appears to be a deliberate case of attempted murder accounts for the appearance in hospital of Lim Bat Lum.

The injured Chinaman lived in a cabin near the Esquimalt & Nanaimo railway, between Four-Mile house and Colwood, and was shot at four o'clock this morning while lying in his bunk.

The attack had evidently been carried out by some one well acquainted with the premises, as previously a board had been loosened by prying off, so that the hand could be inserted with a revolver.

Five shots were fired from an automatic revolver, three taking effect. The injured man was brought to St. Joseph's hospital, where Dr. Robertson operated. Two bullets were removed, and a third is in the lungs.

The man's condition was such that his ante-mortem statement was taken this forenoon. On inquiry at the hospital this afternoon he was reported to be in a very low condition, and the worst results are feared.

ACCIDENTALLY SHOT
A lad named Cherry was accidentally shot by another little fellow this afternoon at his home on Lamson street.

He is now in St. Joseph's hospital seriously injured in the breast. As the school boys and provincial police could not get the city police went out and brought him to hospital, Detective Heather and Constables Rodgers and Robert Foster rendering first-aid on the way in.

CURGENVEN PLAYS
A BRILLIANT GAME
A magnificent batting effort by Curgenven was the feature of the morning's play in the Covichian-Australians cricket match at the Jubilee Hospital grounds. Going in first, Curgenven knocked off 48 runs in thirty minutes, and his score included three 6's and seven 4's. His score is worth a line to itself.

4 4 4 6 6 1 4 6 4 4 1
The batsman bowled him was a terror. It broke back at least six inches, taking the leg peg.

After a good first wicket stand between Curgenven and Taylor which put on 52 runs the rest was disaster (with a capital D) for Covichian. Crawford played in the role of wizard with the ball and in his seven wickets actually hit the middle stump six times. The other was a fine catch on his part from his own bowling.

The Australians lost two wickets before lunch. Down being the only batsman to figure largely in the scoring column.

Princess Theatre.—You cannot fail to enjoy yourself if you see the play of two Johns, as presented by the Williams Company.

TOO LATE TO CLASSIFY
ROOM and breakfast. 1138 Oxford street.

BORN.
LEAHY.—At Bethune avenue, Cloverdale, on 23rd inst., to Mr. and Mrs. R. A. Leahy, a son.

CARD OF THANKS.
Mrs. Buell Rembough and family desire to express their heartfelt thanks to all those kind friends who sent floral tributes and offered them comforting words of sympathy on the occasion of their recent bereavement. Mr. and Mrs. James McIntyre and family.

CARD OF THANKS.
We wish to thank the many friends for the beautiful floral offerings and kind words of sympathy in our recent and hour of bereavement. Mr. and Mrs. James McIntyre and family.

CARD OF THANKS.
Mrs. W. McDowell and family wish to thank the many friends for their kind words of sympathy and beautiful floral offerings at our recent and hour of bereavement.

CARD OF THANKS.
Mrs. G. O. Taylor, of 1827 Wilmot Place, Oak Bay, desires to express these columns her deepest appreciation of the sympathy and help given by many friends in her bereavement, and to acknowledge in so doing her inability to repay, but in slight measure, her debt of gratitude to them.

VICTORIA DAY AT THE GREAT FAIR

Holiday Crowd Promises to Surpass the Record Set Last Year for Attendance

BABY SHOW IS THE
ATTRACTION OF DAY

Thousands of Visitors Took in the Many Sights to Be Seen at the Exhibition

From the moment that the gates opened to-day at 3 o'clock it was seen that the holiday crowd at the fair was to be bigger than ever before. Last year between 15,000 and 16,000 people paid for their admissions, and this was the greatest crowd which had ever been entertained at the fair. Indications point to this figure being broken to-day, however, the attractions are so far superior to anything before shown. There were about 1,300 people on opening day, the biggest Tuesday crowd that ever attended the exhibition. Wednesday's crowd was 2,200, just a few short of last year's figure. The crowds on the ground this morning were far in excess of the morning crowd last year.

Judging in all kinds of stock was completed to-day. Jerseys and Guernseys occupying most of the attention this morning. The stock parade in the afternoon was a great attraction. This sight of between 400 and 500 of the finest cattle and horses in the Canadian and American northwest was a most inspiring one as they paraded into the ring at the south end, headed by the Highland pipers, and marched slowly and with the dignity becoming their proud position around the inside of the race-track. Thousands of people watched the event with the keenest interest.

The event took place immediately following the first race match between the vaudeville performance, including acrobatic and comedy turns, trained animals and a bawky mule act held the attention of the crowd in the grandstand when they were not watching the races or polo match. The rail was lined three deep all afternoon as well.

The lectures and demonstrations upstairs in the Woman's Building were centres of great interest to the members of the gentler sex. In the Made-in-Victoria Building and Main Building large crowds gathered around the cooking and manual training classes.

Northward school-girls prepared a model afternoon tea, while South Park school will get up a dinner to-night. Friday Lamson street and George Jay school-girls will work in the afternoon and evening respectively.

The Baby Show.
Several hundred creche-cars have been sent out by the B. C. Electric Company this afternoon to convey the babies who entered for the most interesting competition which has taken place in connection with the fair. The Big Horse Show Buildings where the proceedings took place, was a bewildering kingdom of babies and their mothers, with an occasional, but decidedly out-of-place-looking, man.

Mayor Morley formally declared the show open shortly after 2 o'clock, by congratulating the organizers on the wonderful success of their enterprise, while the parents were no less congratulated in His Worship's statement that he had never seen so large or so fine a looking aggregation of infants.

All classes were well represented, an almost equal number of girls and boys being shown, and some of the handsomest children imaginable being found in each. The awards, however, are being given principally by points of health and general condition rather than personal appearance, so that little difference of opinion can be stated on a matter in which only experts can judge.

It is stated that the best all-round baby will be eligible for the competition to be held at the Panama-Pacific exposition at San Francisco in 1915, the winner of which will receive the handsome prize of \$25,000.

MEETINGS
First of Sec. on.—The daughters of England Social Club is to hold its first dance of the season in the St. John's hall, Herald street, next Monday.

Dramatic Society.—The annual general meeting of the Victoria Amateur Dramatic Society will be held at the Cathedral schoolrooms next Monday at 8.30 p.m.

Hospital Auxiliary.—The regular monthly meeting of the Woman's Auxiliary, Provincial Royal Jubilee Hospital, will be held on Tuesday, September 26, in the Board of Trade rooms, Bastion Square, at 2.30 p.m.

First Amateur Concert.—The Ladies' Musical Club will give the first of their season's amateur concerts on October 22 at the Alexandra Club, to which only members will be admitted. Those wishing to join the society should apply to Miss Helmecken, Moss street, who will supply full particulars.

Pemberton Memorial Chapel.—Next Sunday will be a red-letter day for the Jubilee hospital, when the Right Rev. Bishop Roper will preach at the annual flower and Thanksgiving service to be held in the Pemberton Memorial Chapel at 3 p.m. Mr. G. Jennings.

Burnett and the choir of St. John's church have kindly consented to provide the musical part of the service, and Miss Davies will sing "In Verdure Glad," from Haydn's "Creation."

Scandinavian Brotherhood.—The Scandinavian Brotherhood will hold a meeting at the rooms of the organization, corner of Bastion street and Rossington alley, on Sunday afternoon at 3 o'clock.

Pythian Sisters.—The opening ball of the season will be held by the Pythian Sisters of Island Temple No. 8, on Tuesday evening in the K. of P. hall.

LOCAL NEWS
Church Text Case.—The text case regarding the right of the city to tax church sites will be taken against the Metropolitan Methodist church.

Building Permit.—A building permit has been issued to C. Moy for alterations to the store premises at the corner of Government street and Cormorant street, at a cost of \$1,500.

Another Protest Meeting.—The Anti-Slavery League holds another meeting this evening at the Liberal rooms, Cormorant street, to protest against the invasion of this province by the yellow slaves, as the hand-bill announces.

A Test of Endurance.—This afternoon the two auto trucks making the journey to Nanaimo and back in an endurance test for the fire department are expected to return to the city. Officials and automobile men are watching the test with great interest.

Will Be Deported.—In the city police court this morning Magistrate Jay sent Edward Head, a young man from the Old Country, who only recently arrived in Victoria, to a month's imprisonment for larceny, and indicated that at the end of that time arrangements would be made for his deportation.

Former Resident Dies.—There occurred at Kaling, London, England, on September 6, the death of a former well known Victorian, Thomas Robert Smith, who came out to this country many years ago in the capacity of factor of the Hudson's Bay Company.

Later he became manager of the firm of Robert Ward & Co., and after the acquisition of that business, he returned to the Old Country about two years ago. He was one of the leading public men in the city for some time, and in 1887-88 was vice-president of the Board of Trade.

SEPTEMBER WEDDINGS
The residence of Mr. and Mrs. T. Macnaughton Jones, Archway avenue, Rockland Park, was the scene of a charming home wedding on Monday evening, when Bessie Ray, their eldest daughter, and Ernest Munroe Vail, second son of Mr. John Vail, of Vail & Sons, commission merchants, Government street, were united in marriage.

Rev. Dr. Cameron, of the Tabernacle Baptist Church, performed the ceremony. The bridegroom was supported by C. W. Brooks, and Miss Kathleen Jones attended her sister as bridesmaid. On their return from the honeymoon trip Mr. and Mrs. Vail will reside at their new home, Belmont avenue.

Mrs. Burnman and her daughter, Mrs. O. Conner, entertained a few friends on Wednesday afternoon to celebrate the former's twenty-fifth wedding anniversary, and in the evening a number of friends and relatives paid a surprise call and made the occasion memorable. A delightful programme was given for the delectation of the host and hostess, Madame Davis singing several beautiful numbers, also Miss Burnman, while Mrs. Seville contributed several instrumental selections. A delicious repast was served during the evening, in the course of which a toast was proposed in honor of Mr. and Mrs. Burnman, including the hope that they might live to celebrate their golden wedding.

St. Andrew's Presbyterian Church was well filled with guests at the wedding there last evening, at 8 o'clock, of Marion Miller, daughter of the late Mr. and Mrs. Patterson, of James Bay, and Norman Linden Croghan, son of William Henry Croghan and Mrs. Croghan, of 2529 Vancouver street. Rev. Dr. Leslie Clay performed the rite, the bride being given away by her brother, C. Patterson. The church was prettily decorated with chrysanthemums and marguerites, and the bride made a pretty picture in a very becoming gown of cream satin trimmed with pearls, a veil of tulle arranged in a chapeau of orange blossoms and carrying a bouquet of bride's roses, carnations and maidenhair. She wore a beautiful amethyst and pearl pendant given her by the bridegroom, and was attended by Miss V. Humphreys, who made a pretty bridesmaid dressed in white, and carrying a bouquet of pink carnations and fern. Mr. Jesse Longfield presided at the organ and played the wedding marches. Later there was a largely attended reception at the residence of the bridegroom's parents, the dining-room, where a delicious collation was served to the guests, being decorated with pink and white flowers, with streamers of smilax and pink ribbon from the centre of the table to the ceiling. Mr. W. Winsby proposed the health of the bride and bridegroom, who were the recipients of numerous congratulatory addresses during the evening. Later the happy couple left on their return from which they will take up their residence at Vancouver street. The bridegroom's gifts were:—To the bridesmaid, pearl ring; to the ushers, Messrs. J. Coverdale and George Walker, pearl tie-pins; and to the best man, signet ring.

THIRD SUSPENSION OF CITY CLERK DOWLER

Office is Temporarily Turned Over to Assistant; Alterations in Engineering Department

The suspension of City Clerk Dowler by Mayor Morley yesterday afternoon, being the third occasion since the mayor took office this year of his enforcement of the statutory power, was accompanied by a letter in which the mayor indicated that the clerk's engagement of special assistance in the department, without reference to himself, and as far as he could find of the finance committee, showed a defiance of the council, and was against the regulations laid down in the by-law regulating the office.

Mr. Dowler left the office immediately, accompanied by the clerk and stenographer he had engaged, and the only one left was the office boy, Mr. Bradley, who was completing a holiday, was summoned by the mayor, and then charged this morning.

It was expected that a further suspension would inevitably follow after the engagement of the temporary staff mentioned in the Times yesterday, but the action of the mayor came sooner than had been anticipated. The action must be reported to the council at the next meeting.

At the previous occasion the mayor was supported by two of the aldermen, and opposed by six, one declining to vote, so it is asserted that if the majority sustain the city clerk, the mayor will continue to exercise his statutory powers of suspension weekly till the annual election in order to keep the matter before the public.

On the other hand it is doubtful if the aldermen will allow the continuation of the controversy, and enjoy may be made to the courts to enjoin the mayor from the exercise of his power in the face of a majority of the council.

In another department of the city hall staff changes are in progress. The sewers department is being reorganized, and the whole of the construction work will be placed under assistant engineer C. Payne, the present sewers engineer, A. O'Meara, being given surveys and other work in connection with the department. This reorganization was planned when assistant engineer B. T. O'Grady was relieved of his position in charge of surveys.

INCREASE IN FARES
Council is Asked to Organize Protest Meeting Against Action of Street Railway.

The increase in the fares on the B. C. Electric Railway will be protested against here as well as in Vancouver, where the movement is taking definite official shape.

The Victoria Laborers' Protective Union, which is largely composed of unskilled civic workers, has applied to the city council for the promotion of a public protest meeting against the fares, and this application is to be brought to the attention of the city council at the next meeting.

In Vancouver the civic committee drafting a protest has invited a member of the Trades and Labor council to join the committee, as requested by the central labor council, and steps along this line are suggested here.

OBITUARY RECORD
The funeral of Eleanor Bowden, infant daughter of Mr. and Mrs. Bowden, of 1225 King's road, took place yesterday from the family residence, Rev. Dr. Scott officiating. There was a large attendance.

The funeral of Janet Houston Drever took place yesterday afternoon from the late residence, 339 Silmoe street, Rev. Dr. Campbell officiating, assisted by Rev. Dr. Reid and Rev. F. H. Fatt. There was a large attendance, and numerous floral contributions were sent. The following acted as pallbearers: Messrs. J. Pottinger, R. Sinclair, W. Walker, R. Marwick, J. McLeir and D. Smith.

CHILDREN FIGHT TO
REMAIN WITH MOTHER
Los Angeles, Cal., Sept. 25.—With her three small boys fighting beside her, Mrs. Mary Alvey, driven to hysteria when told that her children would be taken from her, held the entire court staff of Judge Taft's court at bay for half an hour yesterday.

Screaming and fighting with their fists, the children tried to cling to their mother. The fight waged across the courtroom until humane and probation officers and deputy sheriffs quelled the riot.

Mrs. Alvey's husband petitioned the humane society to take the children away from her on the grounds that she was unfit to care for them. The children were ordered placed in a Watsonville Catholic Institute for the present.

FIRE TAKES LIFE AND
DAMAGES UNIVERSITY
Tacoma, Sept. 25.—One man dead, the gymnasium and domestic science department of the University of Puget Sound totally destroyed and six homes on North State street badly damaged, is the toll of a fire which broke out in the college building yesterday. The total property loss will reach \$20,000, the greater part of which is covered by insurance. Cornelius B. Kessling, a funeral director, employed by Hoskins-Surkey-King Company, collapsed while trying to keep the flames from spreading to his home, 810 North State street and died a short time later.

VAUDEVILLE PREPARATIONSList of Patronesses for Victoria Car-
nivall Committee's Enter-
tainment.The arrangements and plans in con-
nection with the vaudeville perform-
ance to be given at the Arena on Oc-
tober 2 by the citizens' committee are
proceeding apace, and there have al-
ready been numbers of applications
for tickets for the event.The committee reports that the fol-
lowing ladies have kindly consented to
become patronesses of the entertain-
ment: Mrs. Paterson, wife of the
Lieutenant-governor; Mrs. Bowser, wife
of Attorney-General Bowser; Mrs.
Pemberton, Mrs. Roy, wife of Col. Roy,
D. S. O.; and Mrs. Rose, wife of
Commander Rose.It is expected that Mrs. Paterson
will present the medals to the winners
in the fancy-dress contest, and this
part of the proceedings is attracting
the attention of the intending con-
stantly already. Everyone, as far as
possible, is being asked to go in fancy
dress, in order that the affair may
gain color, and to give the carnival at-
mosphere. Tickets are being sold by
all the leading stores along Govern-
ment street, and by members of theladies' and men's committees, of which
Mrs. R. H. Pooley and F. A. Pauline are
the respective convenors.There will be a voting competition
during the evening, and the girls who
succeed in selling the largest number
of votes will be presented with a prize.**NEW YORK COTTON**

MONTREAL STOCKS.

Montreal, Sept. 25.—The market was
heavy and soft all morning and closed
weak. Offerings were numerous, but the
demand was light. Power closed at 2 1/2
c. P. R. at 2 1/2; Cement at 3 1/2; Crown Re-
serve at 1 1/2; Iron at 4 1/2; Spanish River at
1 1/2; pfd. 4 1/2; and L. & O. at 1 1/2.

RECENT ISSUE PRICES.

London, Sept. 25.—Following are the
prices of recent issues: New Ottawa loan,
4 per cent.; Canadian Northern Railway,
5 per cent.; debentures, 5 per cent.;
Canadian Northern Railway, 5 per cent.
notes, 1 1/2 per cent.; Grand Trunk Railway,
5 per cent.; notes, 1 1/2 per cent.;
Notes of the big Canadian government
loan caused a temporary drop in consols,
but they soon recovered.**Financial News****SUPPORT IMPROVED
AT MORNING CALL**Speculative Sentiment Bearish
at New York but List
Stays Firm

(By F. W. Stevenson & Co.)

New York, Sept. 25.—The fact that
the European political horizon is again
becoming clouded by difficulties be-
tween Serbia, Albania and Turkey, has
done much to restrain confidence, and
selling force is thereby accelerated.
Support showed an improvement from
yesterday, however, especially from the
continent.Speculative sentiment has inclined
rather more to the selling side of the
market recently.
Coppers continue to be unfavor-
ably influenced by weakness of the
metal on the other side, and by reports
circulated to the effect that domestic
producers are becoming disposed to
shade prices of the raw material on
deliveries to be made December. Pros-
pects for a timely upturn which will
help restore confidence.It appears that the reactionary tend-
encies displayed by international se-
curities markets during the past few
days have been a reflection of prepara-
tions of October disbursements and
settlement, rather than of other causes.
Action of prices to-day denotes a
moderate support with sentiment re-
moved far from the panic, notwith-
standing adverse factors, thus arguing
the technical strength of quoted
values.

**WHEAT FUTURES ARE
NOW QUOTED LOWER**

(By F. W. Stevenson & Co.)

Chicago, Sept. 25.—At the close of
another bearish day in the wheat trade
with still lower prices recorded—week
and year—there was scarcely a redeem-
ing feature in the situation to encour-
age speculative buyers and investors.
Active liquidation is in progress, and
prices are yielding under pressure of
long wheat, aided by selling on the
part of the bear leaders. It is true
there is a feeling of caution in the
trade, and when a leading house
bought nearly a half million bushels of
December wheat around the bottom
figures, there was enough profit taking
by shorts and covering by conservative
interests to impart steadiness at the
close.

Canada," he said in conclusion, "is that she will always have a harvest like this present one."

TO STUDY AT WYCLIFFE

Young Japanese Clergyman Comes Through on Tamba Maru; Introduced by Bishop Hamilton.

Among the passengers on the Tamba Maru when the Nippon-line arrived yesterday was Rev. K. Mori. The young clergyman is on his way to study theology at Wycliffe college, Toronto, and was met at the outer wharf by Miss Macklem and Rev. William Barton. Mr. Mori was the bearer of a letter of introduction from Bishop Heber Hamilton, Bishop of Mid-Japan. He stated that he would be studying in Toronto for about two years, and then would probably proceed to Europe.

The establishment by the Church of England in Canada of a bishopric in Japan, he said, would result in a number of the younger theological students coming to the colleges in Eastern Canada for education, and those few who have already obtained their education in the Dominion were doing good work among their own people on returning to Japan.

Mr. Mori proceeded to Vancouver on the night boat, and will call on Principal Vance, of Latimer Hall, before leaving for the East.
